## More Than 3,000 Naval Specialists Face Choice If Technical Corps Wins Approval

(TEXT OF NEW NAVY PLAN PAGE 6)

SECRETARY of the Navy Thomas S. Gates, Jr., as one of his last acts in office, will take action about 1 May on proposals advanced by a group led by his successor, William B. Franke, that would:

- Establish a Bureau of Naval Weapons combining the present Bureau of Ordnance and Bureau of Aeronautics.
- Abolish all specialists designators and create a Naval Technical Corps—Congressional approval is necessary—to include specialists in Designing, Engineering and Research, Naval Construction and Engineering, Advanced Nuclear Engineering, Aerology and Communication, and other present special duty officers who do not elect to transfer to the line.

A total of more than 3,000 restricted line officers would have the option of

transferring to the line or the Technical Corps. No new specialists in hydrography, navy intelligence, photography, psychology, and public information would be fed into the Technical Corps.

- Eliminate the Assistant Secretary for Personnel and Reserve Forces, unless Congress provides a fourth assistant secretary.

- Abolish the office of Assistant CNO (R&D) and assign its functions to a newly created Deputy CNO (Development).

- Redesignate the Deputy CNO (Administration) as Assistant Vice CNO/Director of Naval Administration.

- Transfer from the DCNO (Air) to the DCNO (Development) responsibility for the Guided Missile Division, with

## House Approves Officer Pay Supplement; DoD Delay Confuses Coast Guard's Plans

THE House has approved \$60,000 for the Coast Guard to begin immediate payment of the new officer responsibility pay authorized for all of the Armed Forces.

This could mean that Coast Guard officers will be the first to receive the extra money. But, there is a hitch.

The Coast Guard doesn't plan to use the \$60,000—at least, not to pay the 127 officers for whom the funds are earmarked.

So far, the Army, Navy, Air Force and Marine Corps have not decided which groups of officers should be given the added pay. A Pentagon study group has been appointed (THE JOURNAL, 21 March) to explore recommended methods by which the new pay concept could be put into effect.

Coast Guard spokesmen say this delay at the Pentagon is what got the Coast Guard into the awkward position of asking Congress for "supplemental" funds to make officer responsibility payments during the first six months of 1959.

Here is how the situation developed, according to the Coast Guard:

Normally, the Coast Guard follows the Navy's lead in most of its personnel policies.

INFANTRY HOST TO AFA. Col. Henry L. Egan, 3d, USAF, right, director of military studies for the U.S. Air Force Academy, chats with Brig. Gen. Stanley R. Iarsen, USA, assistant commandant of the U.S. Army Infantry School, during a hop at Ft. Benning for 252 cadets from the Academy's Class of 1961. The standard-bearers were entertained by The Infantry School during their Infantry training and observation at the post.

## Senator Monroney Pushes Plan to Buy 400 Modern Cargo Planes to Boost Airlift

SENATOR A. S. Mike Monroney (D-Okla.) sees ultimate hope for building an adequate Armed Forces airlift under a plan involving the purchase of 400 high-speed, high-performance cargo aircraft standardized for use by both the Military Air Transport Service and commercial airlines.

The Senator and members of the Aviation Subcommittee of the Senate Committee on Interstate and Foreign Commerce, of which he is chairman, have begun work on the project.

On 19 March, Lt. Gen. William H. Tunner, USAF, MATS Commander, and members of his staff were called before the subcommittee in executive session. They gave the committee a briefing on the present capabilities of MATS and its readiness to meet its war commitments. No details were released, but Senator Monroney told

## Senate Hears Retired Pay Warning; Contributory System Idea Revived

A MAJOR revision of the entire military retired pay system is in prospect if Congress opens hearings on bills to permit recomputation of pay for those retired before enactment of the 1958 Military Pay Act.

Senator John C. Stennis (D-Miss.), who headed the Senate military pay study last year, said such a move "doubtless would result."

The Senator, an Armed Services Committee member, previously has contended (THE JOURNAL, 17 May

Senator Stennis

## AF Will Gain 127 From Other Academies; Army 6; None Seek Transfer To The Navy

THE Navy will be the only Service this June which does not receive any graduates from the other Academies, and will lose 84 of its graduates to the Air Force and six to the Army.

The Air Force, which will have 43 USMA '59 graduates, will lose only one of its graduates; he will become a Marine Corps officer.

The following "who goes where" chart shows how many graduates from each Academy will receive commissions in the Army, Navy, Air Force, and Marine Corps:

	USMA	USNA	USAF	Total
Army .....	449	6	..	455
Navy .....	..	639	..	639
Air Force .....	43	84	205	332
Marine Corps .....	6	58	1	65

ATOMIC UNIFICATION amity has been achieved in at least one field—the Nuclear Power Plant Operators Course at the Army's Package Power Reactor School at the U. S. Army Engineer Research and Development Laboratories, Ft. Belvoir, Va. The first class graduated included members from three services. Left to right: M/Sgt. Clarence D. Felerabend, USAF; Brig. Gen. S. R. Hanmer, USA, Assistant Chief of Engineers for Troop Operations, who delivered the graduation address; CEI Bernard G. Federson, USN, and M/Sgt. Jack Nicoll, USA.

## Will The Defense Department Unify Service Language Training? AF Plans To Quit Army School—Navy Has Own—Focuses Issue

Defense Department officials soon will need to decide whether it is more economical and efficient to provide language training for military personnel at civilian institutions or at Service schools.

On the outcome of its decision will depend the future

status of the Army Language School at Monterey, Calif., and the future course of the Air Force language program.

Operations at the Naval Intelligence School in Washington, D. C., could also be affected.

# *So you want instruments?*

## **Aero Commander has them!**

Aero Commander provides capacity for a full complement of navigation and communications instrumentation. Available amperage output is more than ample and there's panel enough for everything including electronic controls and radar scanner.

The functional design of the Aero Commander panel provides quick, easy access to all instrument installations. Pilot and co-pilot section are hinged to tilt down, exposing entire installation. Engine panel lifts out upon releasing quick locking screws. Add-

ing to space adequacy, the ADF control head is mounted below the panel in a pedestal type quadrant.

Aero Commander is ideal for instrument training—or flight training. It's well suited and thoroughly capable for logistics support, light utility, personnel transport, photo reconnaissance—for virtually any non-combat military use.

And the superiority of Aero Commander performance and stability is a matter of record. Complete details will be furnished upon request.

## USAF Calls Its Space Defense Role "Basic"; Policy Statement Could Stir Controversy

The Air Force in a document that can be expected to be read with real interest in the Army, declares that "United States military aerospace capabilities must consist of an inter-acting, indivisibly linked combination of both offensive and defensive forces."

The Air Force makes this statement in an "important article about the Air Forces' basic mission" which has been sent to editors of Air Force base newspapers with the admonition, "Try to find space for it in your paper."

The article declares at the outset:

"The U. S. Air Force, which is primarily responsible for preparing forces for the Nation's aerospace offensive operations, is also primarily responsible for preparing forces for its aerospace defensive operations."

The official Air Force Statement comes at a time when the Army is urging increased support for the Nike-Zeus anti-missile missile program. As yet, the Defense Department has not officially assigned any service the responsibility for manning Zeus units. Although the Army is preparing Zeus training programs.

The Air Force, in its communication to base editors, declares that "legally (Title 10, U. S. Code) the Air Force is the Service which 'shall be organized, trained, and equipped primarily for prompt and sustained offensive and defensive air operations.' 'Air' as used in the law does not, of course, limit the operations of Air Forces to any specific altitude."

The Air Force takes the position that "the characteristics, the strengths, and weaknesses, of offensive aerospace forces are well known to the Air Force whose members are career specialists in such operations. It is enemy forces of this kind that the United States aerospace defensive system must be prepared to cope with."

"It is logical, therefore, that the Air Force has the primary responsibility for developing the doctrines, procedures and equipment for defense against these enemy aerospace offensive forces."

The Air Force paper adds: "Air Force aerospace defense objectives are based on the knowledge that there is no 100 per cent defense against a strong, determined aerospace attack of the kind that could be launched against us. The offensive has the advantage of choosing the time and places. However, the existence of a vigorous and well organized defense limits the enemy's freedom of action and definitely influences his planning."

Concluding, the Air Force says that our forces "must be strong enough offensively to eventually eliminate the striking power of the enemy at its source, and strong enough defensively to maintain a high survival rate for all our military forces and for the nation."

"In short, United States military planning must aim for the maximum deterrent/survival value from the resources that are made available for national defense."

28 Mar. 1959 (Vol. 96, P. 887)

Army Navy Air Force Journal 3

**NAVY SHOWS AF ITS BULLPUP.** Lt. H. W. Egan, USN, center, Bullpup Project Pilot for Air Development Squadron Four (VX-4), based at the U.S. Naval Missile Center, Point Mugu, briefs six Air Force Cadets on the Martin Bullpup missile. The soon operational Bullpup, shown here on a Douglas A4D Skyhawk, is the Navy's latest supersonic air-to-surface missile which was tested by Guided Missile Unit 7 and is undergoing fleet evaluation by Air Development Squadron Four both operating out of the Naval Missile Center. The Bullpup is being purchased by the Air Force for tactical operations. Left to right are: Capt. J. F. Pierce, USAF, Liaison Officer; Cadets Paul M. Sullivan, Sidney E. Gurley, George H. Hines, Lieutenant Egan, Cadets William G. Goodyear, Lew P. Price, and John T. Smith.

## Navy Will Build New Hydrofoil Sub-Chaser For Rough-Sea Duty; Score Beat On USSR

**T**HE Navy has completed plans to build the world's first hydrofoil sub-chaser capable of operating in rough seas.

The disclosure came when the House Armed Services Committee approved a \$110 million authorization program for the construction of five new auxiliary ships for which the Navy currently does not have adequate tonnage authority.

RAdm. Albert G. Mumma, Chief of the Bureau of Ships, previously had revealed (THE JOURNAL, 13 September 1958) that he believed the Navy was about ready "to come out with the only good hydrofoils in the world."

He said the development would give the U. S. a sub-chaser with significantly greater speeds than any other patrol craft in the fleet.

### Reports Of 100 MPH Speeds

The new sub-chaser, according to Committee information, will be a "true hydrofoil," designed to operate 200 miles off-shore. The speed of the vessel was not disclosed, but there have been reports that speeds of approximately 100 miles per hour have been attained with hydrofoils.

The vessel will be equipped with variable-depth and long-range sonar and will be armed with twin torpedo-launchers and depth charges.

### Soviet Unsuccessful

Other nations, including Russia, have attempted unsuccessfully for many years to develop hydrofoil craft capable of rough-seas operations.

Admiral Mumma has said that if the sub-chaser is a success it "will go faster than any submarine in the world." He previously told Congress he believes hydrofoil craft of 100-150 tons are possible with present knowledge.

The craft to be built by the Navy will displace 80 tons and will be 115 feet in length.

Other vessels in the tonnage authorization program approved by the Committee include an amphibious transport, dock, an assault ship and two escort vessels.

The authorization bill has been ap-

proved by the House and is expected to win quick Senate action.

Funds for construction of the ships are included in the fiscal '60 military appropriations bill.

### Navy Will Launch Fast Research Boat

The Navy will launch in April a 24 foot boat designed to reach a speed of 60 knots with "super-cavitating" propeller and hydrofoils.

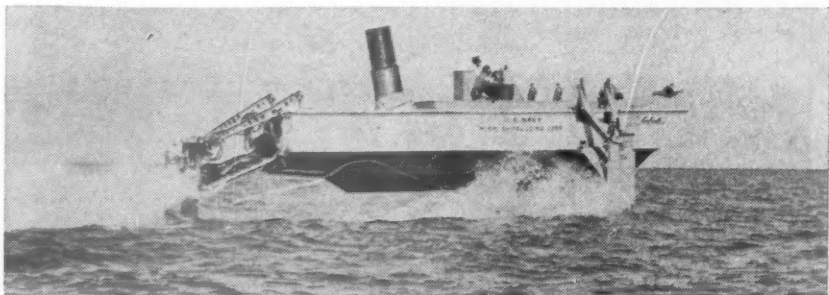

Being developed at Dynamic Developments, Inc., Babylon, Long Island, N. Y., the new boat is the product of a \$55,000 research contract with the Office of Naval Research.

The new craft will weigh one ton and serve as a design test vehicle.

A General Electric T-58 turboshaft engine—used in helicopters and experimental vertical take-off and landing aircraft—will power the boat. A high speed precision transmission system is also being developed by General Electric for use in the boat.

Normal hydrofoils, which are in effect underwater wings that lift a boat's hull out of the water to reduce drag and increase speed, have water flowing both beneath and above their surfaces. "Super-cavitating" foils, shaped differently, create a vapor cavity on the upper surfaces of the foils to get greatly multiplied speed possibilities.

Dynamic Developments, Inc., is an affiliate of Grumman Aircraft Corporation.

**A TURBINE POWERED HYDROFOIL** is the "Halobates" built by the Miami Shipbuilding Corp., under Navy contract, and powered by a Lycoming T53 gas turbine engine, of the same design that powers such helicopters as the Bell HU-1 Iroquois. The 860 shp power plant, coupled with the hydrofoils, has propelled the 15 ton landing craft at speeds "well in excess of 30 knots, or three times the speed normally associated with such craft."

## Approve WAAC Credits

The long battle to give former members of the Women's Army Auxiliary Corps "active service" credit for their time in the WAAC is nearly over. Enactment of HR 3321 will add \$114,591 to the pay checks of about 984 active duty members of the WAC and WAF and about 36 on the retired rolls.

A House Armed Services subcommittee approved the measure 23 March and endorsement by the House is anticipated. It is also expected that the bill will meet with a favorable reception in the Senate.

## Lower Insurance Costs Are Possible For 500,000

A savings of up to two-thirds in their GI insurance costs can be made by 500,000 veterans who served in the Korean and post-Korean period whose insurance policy numbers are preceded by the letters "RS." The Veterans Administration said these policyholders may exchange their present five-year term policies for new term policies that carry the same face value at a greatly reduced premium cost. These savings are made possible by a continuing improvement in mortality rates resulting from a lengthening of the life span.

The new policies are not renewable after the holder has passed his 50th birthday but must be converted to a permanent plan before that date if he wishes to continue protection beyond that date. In all other respects they carry the same protection of the present policies.

This restriction is considered to be in the best interests of policyholders in order to avoid the heavy increases in renewal term rates in later life.

The VA added that holders of the present term policies also have several plans of permanent insurance to which they can convert immediately. However, the premiums for permanent plans, while they never increase, are in a higher bracket than term insurance.

Veterans not wishing to incur the expense at this time of the permanent type plans can save money while waiting by exchanging their original term policies to the new lowest cost type, VA said. Both the present and the new term policies can be converted at anytime, without physical examination to a VA permanent-type plan.

Full information can be secured by contacting any VA office, or by writing the VA office to which premiums have been paid.

## OK RESERVE PLAN

The House has approved and sent to the Senate the Reserve Officers' Incentive Act of 1959, formerly known as the Term Retention Contract proposal.

The measure (HR 5132) authorizes RIF payments which could range up to \$20,404 for Reserve officers released from active duty.

**DENTAL CHIEF IN KOREA.** Maj. Gen. James M. Epperly, Army Dental Corps chief, (left) is escorted by Brig. Gen. H. A. Gerhardt, Chief of Staff, I Corps (Group), Korea. Gen. Epperly toured the Corps units in Korea as part of a Far East inspection of dental and medical facilities. Col. Donald L. Cook, near center, 8A Dental Surgeon, accompanied the party.

## Col. Snow Of Army Receives AF Award

Col. Jerrold D. Snow, USA, has been awarded the Air Force Commendation Ribbon in ceremonies at Fuchu Air Station near Tokyo.

Colonel Snow, 39, distinguished himself "for especially meritorious service" as J-4 with U.S. Forces Japan (USFJ) headquarters from 1 July 1957 to 14 February 1959.

Married to the former Mary Carter of Broken Arrow, Okla., and the father of three children, Marilyn, 11; Harrison, 7, and Martha, 1, Colonel Snow has been reassigned to the Norfolk, Va., District Engineer Division.

**SCHOOL'S OUT** — Members of the second Army Management Orientation Course at the U. S. Army Management School leave Ft. Belvoir after graduation ceremonies. They are, left, Col. Francis J. Corbin, chief, Manpower Management Division at the school; Brig. Gen. Don C. Faith (Ret.), a guest lecturer and director of men's activities at George Washington University; Brig. Gen. John C. Hayden, chief of staff, Fourth U. S. Army, Ft. Sam Houston, Texas; and Brig. Gen. Robert A. Hewitt, commanding general, 52nd Artillery Brigade (AD) and Ft. Wadsworth, N. Y.

## M/G Beach To 82nd Abn; Shift Other Gens.

Maj. Gen. Dwight E. Beach, Director of Air Defense and Special Weapons in the office of the Deputy CofS for Military Operations, will take command of the 82d Airborne Division, Ft. Bragg, N. C., 1 July.

General Beach, who has played a key role in Army missile development, will succeed Maj. Gen. Hamilton H. Howze, former Director of Army Aviation, who is under orders to Korea.

Maj. Gen. Charles R. Hutchison, Assistant Director of the Army Budget in the office of the Comptroller, will move to Hawaii in September for duty with U. S. Army Pacific.

Brig. Gen. Thad A. Broom, USARPAC Quartermaster, will return from Hawaii for duty with the Army Subsistence Center, Chicago, in July.

Brig. Gen. Thomas B. Evans, Deputy Executive Director Subsistence Center, will succeed General Broom.

## Lt. Col. Christy To MDW

The Army has ordered Lt. Col. John J. Christy to the Military District of Washington following graduation from the Army War College.

Lt. Col. Clarence W. Patten, a Naval War College student, will report to First Island, Governors Island, N. Y.

## Maj. Anderson Is Hdqr. Comm

Maj. Edward P. Anderson is the new Headquarters Commandant of the Brooklyn Army Terminal, under Col. Ray K. Bannister. Formerly the Assistant Inspector General, Major Anderson replaces Maj. James Simmons, who left for Saigon, Vietnam.

## ARMY BIRTHDAY

The Army has released Circular 365-6 giving information and guidance concerning the annual Army Birthday Celebration on 14 June.

As in past years, the Army cautions that the celebration "must not conflict with, duplicate, or detract from the Armed Forces Day observance."

Commanders were "enjoined to exercise judgment and discretion in planning appropriate observance of these events."

## Colonels Move

Col. Joseph G. Duncan III goes from Aberdeen Proving Ground, Md., to the Philadelphia Ordnance District effective 1 April.

Col. Gordon W. Cook and Col. Edward M. Tolliver, students at the Industrial College of the Armed Forces, will be assigned, respectively, this summer to the Office of the Quartermaster General and the Office of the Deputy CofS for Logistics.

Col. Joseph C. Stewart is the new Deputy Information Officer of the Army Air Defense Command in Colorado Springs, under Col. Kenneth I. Curtis, Information Officer. Colonel Stewart formerly was Information Officer for NATO forces in Southeastern Europe at Izmir, Turkey, and is a former Chief of Information of the Continental Army Command Ft. Monroe, Va.

**RANKING ARMY WOMEN** welcomed on visit to Natick (Mass.) QM R&E Command by Maj. Gen. C. G. Galloway, CG. L to R: Col. Ruth A. Robinson, WMSC; Col. Inez Haynes, ANC, and Col. Mary L. Milligan, WAC.

## New Insignia Set For Army Women

The Army has announced in Circular No. 670-36 that effective 1 July 1960 the insignia of grade for enlisted women will be goldenite embroidery on an Army green background, replacing the gold color embroidery on a taupe background.

The gold color embroidery on a taupe background will be continued to be sold and issued until the present stock is exhausted or until 1 July 1960, whichever is sooner.

Either the current or new insignia is authorized for wear with the duty uniform, including the new women's Summer uniform, until 1 July 1961.

## Seek 45th Division Names

Daniel F. Whalen, Chairman of the 40th Infantry Division Society, is seeking the names and addresses of men who served with this division in both wars and in Korea.

For information, please write to 1049 Braxton Street, Uniondale, Long Island, N. Y.

## Capt. Miller GS Secretary

Capt. Joseph R. Miller has assumed duties as Secretary of the General Staff at Ft. Leonard Wood, Mo. He replaces Capt. James J. Reedy, assigned to the 5th Engineer Battalion which will Gyroscopé to Germany in October.

## Future Of Army Language School Linked To Pentagon All-Service Decision

From first page—

The big factor pressing new consideration of the language problem is the Air Force proposal to withdraw its students and financial support from the Army Language School by the end of this fiscal year. During the year, 328 Air Force officers and men were scheduled to enter the Monterey school, while an additional 981 were chosen by the Air Force for assignment to civilian language schools.

Training all its language students at civilian schools, the Air Force says, can be provided more economically than by sending them to the Army Language School.

The Army, on the other hand, contends that withdrawal of Air Force students will mean higher costs for the training of Army students since the school will be forced to operate far below capacity. To

help cut down the per capita costs of the school, Army officials would like to see more Air Force students in attendance.

Congressional pressure to force added Air Force attendance at the Monterey school has been forthcoming from a House Armed Services Subcommittee, under Representative George P. Miller (D-Calif.).

In a special report to the Armed Services Committee, Representative Miller's group said that it "feels that the Secretary of Defense might well give serious thought to the possibility of changing the Army Language School to the Armed Forces Language School so that there will be a greater utilization of its facilities and instructors."

The report says that:

"While the Air Force may be able to obtain this training at universities and other institutions at equal or lower cost

than that furnished at the Language School, nevertheless the Subcommittee is of the opinion that the decision of the Air Force to withdraw from the Language School adversely affects the other Services.

"It is perfectly obvious," the report continues, "that the withdrawal of Air Force students from the Army Language School will increase the costs per individual student at the Language School. . . . In all likelihood, the ultimate total costs for language training in the Armed Services will increase."

Besides the Air Force students being trained at the Monterey School, there are now approximately 1050 Army and four Marine students in attendance. The Marine Corps also trains a very small number of language students at the Naval Intelligence School in Washington, D. C.

The Navy reports that it is providing

language training for approximately 80 officers and men at its Intelligence school. No students, the Navy says, are being trained at the Army Language School.

Although the Air Force is the only Service to place a major reliance on civilian language training institutions, a limited number of Army and Navy personnel are now attending civilian schools. Army officials report they have 22 language students studying at six civilian institutions. The Navy says it is training 28 students at three civilian schools.

Representative Miller's report indicated that the Army Language School could successfully operate with as many as 2,400 students.

## Civilian Schools

Here are the civilian language schools where Army, Navy and Air Force personnel are currently being trained:

## Navy Asks More PCS Funds; Bars Big Families From Remote Posts

**B**IG Navy families can look forward to fewer duty tours in far-off spots. That's the word from VADM. H. P. Smith, Chief of Naval Personnel. He has told the House Appropriations Committee the Navy is "scrutinizing very carefully the people we allow to go on long trips, such as to a station in Europe."

He said, "A man with a big family does not get to go."

The policy is part of a Navy program to reduce permanent changes of station. Congress has severely criticized all four Services for making too-frequent changes in duty assignments.

Steps the Navy is taking to curtail PCS moves were outlined by Admiral Smith during an appearance before the Committee to ask for an additional appropriation of \$13.1 million to cover such expenses during the current fiscal year. The Committee granted most of the increase.

Admiral Smith said the Navy has

made progress in reducing the number of permanent changes of station, but "we simply have not budgeted enough" for the program.

For example, he said, in the current budget, the President asked for \$120.4 million to pay for movements and permanent changes of station. Congress appropriated only \$117.2 million, and the Navy actually needs an estimated \$130.3 million.

In addition to restricting PCS movements of "personnel with a large number of dependents," Admiral Smith said the Navy also has put into effect a program under which personnel are moved "to the extent possible" only on the coast where they now live.

He explained that this means that officers and men assigned to shore duty on the Atlantic coast will, when they go to sea duty, be assigned to the Atlantic Fleet. And those assigned to shore duty on the Pacific coast, ultimately will be assigned to sea duty with the Pacific Fleet.

## Marine Drone Copter Attracts Interest Of All Services; "Vigorous Program" Asked

MARINE CORPS BASE,  
QUANTICO, VA.

**V**IRTUALLY all Leatherneck helicopter pilots would be freed for combat missions if the Marine Corps adopts the Kaman Aircraft Corporation's drone chopper as its vertical envelopment logistics support vehicle, according to the Corps' top development expert.

Brig. Gen. Samuel R. Shaw, Marine Corps Landing Force Development Center Director, in an interview with a JOURNAL representative here, hailed the drone as "an extremely promising development" which will greatly enhance the Corps' ability "to haul beans and bullets into battle."

Adoption of the drone, General Shaw said, will mean "that we will be able to get more combat usefulness out of our piloted machines." He said it currently takes from 30 to 60 helicopter loads a day to support one reinforced battalion. Use of a drone copter, he explained, should enable the Corps to keep its fighting troops supplied without tying up helicopter pilots.

The MCLFDC Chief stated that as a result of evaluation tests of the Kaman drone, he "plans to recommend a vigorous program" to his superiors in about two weeks.

Kaman engineers have been at the Quantico Center for about a month putting the drone through its paces. In the evaluation flights—they have been observed by members of the Army, Navy and Air Force and observers from a number of Allied Nations—Kaman has been using obsolete, two-place, HTK helicopters as test-beds to demonstrate the reliability of the drone concept.

General Shaw

General Shaw said that by converting the standard HTK into a remote-controlled drone, great saving in weight is achieved by eliminating the pilot and stripping the copter down to the basic parts needed to put it in the air.

A Kaman project engineer showed THE JOURNAL a full-sized model of the drone housed at the Quantico Air Station. The vehicle consists of a motor, rotor-blades, a gas tank, a small box of electronic equipment and an undercarriage. All safety features have been removed, including the entire fuselage, and navigational gear.

The General described the drone as "a quantum jump" in the Corps' ability to resupply its fighting men. He pointed out that since the vehicle is stripped to its bare essentials, the drone's lift capability will be increased by from one-third to one half.

Another "tremendous money-saving and manpower advantage" of the remote-controlled drone, he said, is the fact that it is easier to maintain than a piloted copter. This is because maintenance men will not have to spend time to keeping safety features in working order. Further

Additional details concerning the work of the Marine Corps Landing Force Development Center will be published in next week's issue of THE JOURNAL. The 11 April issue will feature a report on the Marine Corps Educational Center, directed by Brig. Gen. Victor H. Krulak. A JOURNAL reporter has just completed a tour of the Quantico facilities.

cost savings will be realized because the drone is built of standard "off-the-shelf" parts, General Shaw noted.

The 50-pound control box is circular so that the operator is able to move 360° around the panel, always keeping the airborne drone at his front. This arrangement eliminates the necessity for the operator to fly the drone "over the shoulder."

A control stick, protruding from the

## Conclusions, General Findings, Recommendations of Naval Organization Report

(Following is the text of the final part (IV) of the Report of The Committee on Organization of The Department of the Navy, headed by Under Secretary and Secretary-designate William Franke, Secretary of the Navy Thomas S. Gates, Jr., expects to take action on the report about 1 May.)

**T**HE Committee concluded that a continuation of the present bilinear system, with its definite division of military and non-military duties and responsibilities among uniformed and civilian officials, offers the best prospect for the successful prosecution of future naval warfare because it more effectively integrates both of the elements, industrial and military, upon which the national seapower depends; and, in particular, it seems to be that form of organization best suited to embrace and exploit the opportunities afforded by contin-

uing break-throughs in the realm of the physical sciences.

After careful study of the matter available for its consideration, the Committee made the following general findings with regard to the primary objectives which it had established:

**Objective 1:** To determine whether the Department of the Navy is properly organized to be responsive to the Secretary of Defense in the light of the Department of Defense Reorganization Act of 1958.

**Finding:** There is no evidence that altera-

tions in organization or functioning of the Department of Defense will require basic changes in the organizational structure of the Department of the Navy, which organization is now wholly responsive to existing law.

**Objective 2:** To determine what adjustments, if any, are necessary because of changes in the responsibilities of officials of the Department of the Navy resulting from the Department of Defense Reorganization Act of 1958.

### Findings

(a) The general principles and detailed assignments of responsibility by the Secretary to his Civilian Executive and Naval Professional Assistants, as presently set

forth in General Order No. 5, are valid in light of the Department of Defense Reorganization Act of 1958, except for the matter of the operational command of forces assigned to unified or specified combatant commands.

(b) The provisions of General Order No. 5 relating to command of the Operating Forces of the Navy by the Chief of Naval Operations must be brought into consonance with the Reorganization Act of 1958, and those provisions of General Order No. 5 relating to command authorities of the Chief of Naval Operations and the Commandant of the Marine Corps must be qualified by prescribing that they shall be exercised in a manner consistent with the full operational command vested in uni-

# Text Of Naval Organization Report

fied or specified combatant commanders. A similar change in General Order No. 9 will also be required to bring this Order into consonance with the Reorganization Act of 1958.

**Objective 3:** To assure that the Department of the Navy is properly organized to carry out its current and future functions in the most effective, efficient, and economical manner.

## Findings

(a) The organization of the Department and the inter-relationships among its key officials, as prescribed in General Order No. 5, are sound, wholly responsive to current and anticipated future requirements that may confront the Department, and should not be changed.

(b) Within the context of the organization and inter-relationships now prescribed by General Order No. 5 there exist opportunities for improvement of the Department's effectiveness. The changes proposed herein are those which, in the opinion of the Committee, would enhance materially the Department's capability to carry out its assigned role, and which will improve substantially both the efficiency and the economy of its operation. That the changes here recommended conform to the historic development of Naval Organization in being evolutionary rather than drastic in character is demonstrated by the fact that the vast majority of these changes can be implemented by administrative action without the necessity of statutory changes. The Committee has been advised by the Judge Advocate General that only those specific recommendations indicated in this Summary by asterisks will necessarily require changes in existing laws or regulations.

[The footnote references indicated by each such asterisk list the sections of existing statutes, U. S. Navy Regulations, 1948, or General Orders in which changes or additions will be required.]

## Recommendations

In summary, the specific recommendations made by the Committee throughout this report are:

### A. The Navy Secretariat

(1) That the Secretary of the Navy establish a Department of the Navy Policy Council to be composed of the Secretary, as Chairman; the Under Secretary; the Chief of Naval Operations; the Commandant of the Marine Corps; and the Vice Chief of Naval Operations.

(2) That, coupled with this policy council, a greater and more objective use be made of the Executive Committee (SECNAVINST 5420.31) in top level consideration of major matters.

(3) That the Department of the Navy continue to recommend and urge a change in the Department of Defense Reorganization Act of 1958 which will permit retention of the fourth Assistant Secretary.

(4) That the position of Assistant Secretary of the Navy (Personnel and Reserve Forces) be the Assistant Secretarial position to be eliminated as a result of the Department of Defense Reorganization Act of 1958, and that the functions of this office be redistributed amongst the three remaining Assistant Secretaries.

(5) That one of the three remaining Assistant Secretaries be designated as Assistant Secretary for Research and Development and that he be assigned cognizance of research and development matters.

### B. The Staff Offices of the Secretary

(1) That the Secretary of the Navy reaffirm his policy requiring bureaus and offices and their shore activities to take positive steps to keep the Chief of Information and the Chief of Legislative Liaison, and their staffs, fully informed of impending decisions that have public relations and congressional liaison aspects.

(2) (a) That the Office of Analysis and Review expand the Navy Program Progress Report to include parallel financial data in order to provide better information to top management of the Navy Department.

(b) That the Comptroller of the Navy provide to the Office of Analysis and Review the financial data required for (a) above.

(c) That the Deputy Comptroller and the Director of the Office of Analysis and Review present monthly to the principal civilian and military officials of the Navy Department information as to exceptional aspects of the Department's programs.

(3) That no change be made in the present arrangement for the handling of patents and patent law matters as prescribed by the Secretary in SECNAV Instructions 5430.20, 5430.25A, and 5430.39.

(4) That the responsibility for allocation and control of civilian personnel ceilings be transferred from the Assistant Secretary (Personnel and Reserve Forces) to the Comptroller of the Navy.

### C. The Office of the Chief of Naval Operations

#### 1. General

No recommendations.

#### 2. Research and Development

(1) That the Assistant Chief of Naval Operations (Research and Development) (Op-91) be disestablished and that the personnel and functions assigned to his office be transferred to the proposed Deputy Chief of Naval Operations (Development) recommended in the next succeeding paragraph.

(2) That a new Deputy Chief of Naval Operations (Development) be established in the Office of the Chief of Naval Operations to integrate and coordinate the overall Navy Research, Development, Test, and Evaluation programs. He would, in accordance with General Order No. 5, direct the efforts of the bureaus and offices of the Navy Department, as may be necessary, in meeting approved research and development program requirements to assure an integrated effort continuously responsive to long-range objectives, immediate requirements, fiscal limitations, and advancing technology. (A vacancy would be created for this Deputy by the reassignment of the Deputy Chief of Naval Operations (Administration) as hereinafter recommended.)

(3) That, in order to provide the required personnel for the staff of the proposed Deputy Chief of Naval Operations (Development) and at the same time to clarify program cognizance, an appropriate billet allowance be established and filled in part by the transfer of research, development, test, and evaluation functions, and those personnel dealing with these functions, from the Undersea Warfare Division (Op-31), the Surface Type Warfare Division (Op-34), the Atomic Energy Division (Op-36), and the Air Warfare Division (Op-55).

(4) That the Guided Missiles Division (Op-51) be transferred intact to the proposed Deputy Chief of Naval Operations (Development).

(5) That the functions of scientific data collection and development coordination re-

## NATO Celebrates 10th Birthday At Norfolk

Admiral Jerauld Wright, NATO Supreme Allied Commander, has announced a tentative schedule of events for 6 April when the North Atlantic Council visits his Norfolk Headquarters to observe the 10th Anniversary of NATO.

Foreign Ministers and Permanent Representatives of 15 members of the North Atlantic Alliance head the group which arrives from the Nation's Capital. In addition, ambassadors to the U. S. from the 15 nations, Congressional leaders and senior allied military officers will attend the anniversary observance.

Dr. Paul-Henri Spaak, NATO Secretary General, and members of his international staff, will attend, as well as members of the NATO Military Committee and Standing Group.

Events include an honors ceremony at SACLANT Headquarters, where NATO and SACLANT flags will fly with the national colors of the 15 nations. In the afternoon, a military review will be held on the Naval Base Parade Ground. The distinguished visitors will inspect U. S. and Canadian warships tied up at Naval Base piers.

A 10th Anniversary Ball will be held in the evening.

lating to research and development programs (including fiscal aspects), now performed by the Office of Naval Research (as prescribed by the Secretary of the Navy), together with the associated personnel and equipments, be transferred to the proposed Office of the Deputy Chief of Naval Operations (Development).

(6) That the organization under the proposed Deputy Chief of Naval Operations (Development) be aligned by weapons systems so as to be responsive to the weapons systems concept.

#### 3. Deputy Chief of Naval Operations (Personnel and Naval Reserve) (Op-01)

No recommendations.

#### 4. Deputy Chief of Naval Operations (Administration) (Op-02)

(1) That the present Deputy Chief of Naval Operations (Administration) (Op-02) be redesignated as the Assistant Vice Chief of Naval Operations/Director of Naval Administration (Op-09B), reporting directly to the Vice Chief of Naval Operations.

(2) That all staff components and functions presently under the Deputy Chief of Naval Operations (Administration) (Op-02) be transferred to the Assistant Vice Chief of Naval Operations/Director of Naval Administration (Op-09B).

(3) That the charter for the Assistant Vice Chief of Naval Operations/Director of Naval Administration (Op-09B) and the revision of General Order No. 19 reflect the relationship established among naval district commandants, the Secretary of the Navy, and the Chief of Naval Operations.

#### 5. Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03)

(1) That the readiness function now in the Air Warfare Division (Op-55) be transferred to the Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03).

(2) That, as soon as the Chief of Naval Operations determines that the special need for the Antisubmarine Warfare Readiness Executive as his direct executive has terminated, this function be returned to the Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03).

(3) That the warfare divisions be realigned according to the types of naval warfare waged today, and be grouped as sections or divisions under the Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03). A suggested realignment is: strike warfare, amphibious warfare, antisubmarine warfare, offensive submarine warfare, air defense warfare, and electronic warfare.

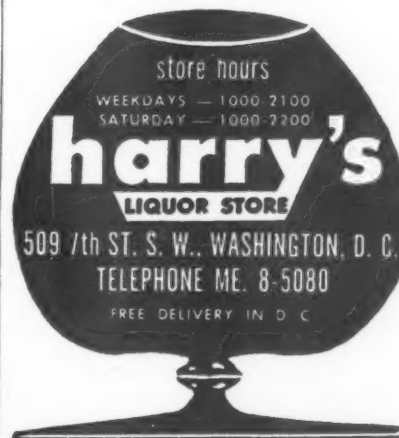

(4) That the research and development functions now performed by the divisions of the Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03)

## L/C J. C. Smith Succeeds Col. Huish At Clinton

Lt. Col. Joseph C. Smith, who was shot down over Normandy while ferrying troops on D-Day, is the Commander of Clinton County AFB, Wilmington, Ohio.

He replaces Col. Frederic G. Huish, now Commander of the 2494th Air Reserve Training Wing, who formerly held the position of Base Commander as an additional duty.

Col. Smith was Commander of the 2234th Air Reserve Flying Center, L. G. Hanscom Field, Bedford, Mass., before coming to Clinton County.

Colonel Smith's wife, Margaret, and his sons Joseph C., 15, William R., 13, Thomas, 9, and his daughter Margaret, 16, will join him in June.

## Major Schmucker's New Bombing Computer Scores In Tests; Eases "Differential Wind"

Field testing of a new bombing computer has been completed at the Air Research and Development Command's Air Force Special Weapons Center, Albuquerque, N. Mex.

The Level Bombing Wind Offset Computer, supplementary equipment to the standard bombing navigation system in B-47 and B-52 strategic bombers, has shown in 57 test bomb drops "a significant bombing accuracy improvement over standard bombing equipment," ARDC stated.

Designed by Maj. Daniel L. Schmucker, chief of the center's Weapons Delivery Branch, the computer compensates for differential ballistic wind—the greatest single factor in level bombing errors.

Differential ballistic wind is the variation between the wind at a bomber's altitude and the winds a bomb passes through during its fall to target.

Using the comparatively inexpensive computer which in size compares with a

## Col. Spain Wins Best Speech Award

Col. DeWitt Spain of Luke AFB, Ariz., who won the "Best Speech" Award at the Annual District Three Toastmasters' Club Speech Contest in Phoenix, will represent Arizona in the National Speech Contest 2 May at Casa Grande, Ariz.

Another winner from Luke was Capt. Peter J. Pearson, who came in third in the "Humorous Speech" category.

### SEVENTH SITE

Lincoln AFB, Neb., will be the seventh site for SAC's Intercontinental Ballistic missiles.

Other ICBM sites under SAC are Vandenberg AFB, Calif.; Cheyenne, Wyo.; Omaha, Neb.; Spokane, Wash.; Denver, Colo.; and Forbes AFB, Kan.

## Captains Now Eligible For USAFIT Courses

The Air Force Institute of Technology will make major changes in officer grade requirements for the fiscal '61 management courses.

AFIT has been granted authority to issue letters of eligibility to qualified captains for the Advanced Management and Management of Research and Development Programs.

Captains must have at least 10 years' active Federal commissioned service as of the date the programs start in the fall

of 1960. Heretofore, the two management courses were open only to field grade officers.

Another change establishes captain as the minimum grade for AFIT graduate courses in Business Administration, Engineering Administration, and Industrial Administration.

These courses were open in the past to officers in the ranks of first lieutenant through lieutenant colonel.

## U. S. AIR FORCE ORDERS

James H. Douglas, Jr.—Secretary of the Air Force

Malcolm A. MacIntyre—Under Secretary of the Air Force  
Philip B. Taylor—Assistant Secretary (Material) (Designate)  
Lyle S. Garlock—Assistant Secretary (Financial Management)  
Lewis S. Thompson—Special Assistant (Manpower, Personnel & Reserve Forces)  
Richard C. Horner—Assistant Secretary (Research & Development)  
General Thomas D. White—Chief of Staff

### LIEUTENANT GENERAL

Anderson, Samuel E., fr Andrews AFB; to Hq AMC, Wright-Patterson AFB, for dy as Comdr, AMC, & aptd to rank of Gen, eff 10 Mar 59.

### MAJOR GENERAL

Rawlings, Edwin W., Ret, is placed on RegAF Ret List in gr of Gen.

Beebe, (Brig Gen) Royden E., jr, fr Andrews AFB, & ret in gr of Maj Gen, eff 31 Mar.

### BRIGADIER GENERAL

Napier, (Col) Ezekiel W., fr Wash, DC, & ret in gr of Brig Gen, eff 2 Apr.

Pottenger, Charles H., fr APO 323, SF, to Amarillo Tech Tng Cn, ATC, Amarillo AFB, for dy as Comdr, NLT 3 Aug.

### COLONEL

Fr Wash, DC to Sta Indicated

Blase, George H., dy sta Det 205, So Illinois Univ, Carbondale.

Massengale, William M., jr, dy sta Det 1, Wright-Patterson AFB.

McDowell, William L., jr, Hq 819th ADiv, SAC, Dyess AFB.

To Hq Sacramento Air Mat Area, AMC, McClellan AFB:

Ashby, William K. Lyon, Edsel L.

### LIEUTENANT COLONEL

Alessandro, Michael N., Biggs AFB, to Hq Fifteenth AF, SAC, March AFB.

Adams, Ralph W., Ent AFB, to Ofc, JAG, Hq USAF, Wash, DC.

Fr Wash, DC to Sta Indicated

Steffes, Eugene Q., Hq AWC, AU, Maxwell AFB, as stu 59-60 AWC CL.

Matheson, William K., dy sta AF CAP Lsn Ofc, No Centr Region, CAP, Minneapolis-St Paul Intl Apt.

Carter, Roger M., 1074th Med Svc Sq, Hq Comd USAF, USNH, Phila, (Pnt).

Riddle, Richard D., Hq PacAF, APO 953, SF.

Smith, Everett H., Hq CAIRC, APO 825, NO, La.

Perkins, Robert F., Hq 100th Maint&Sup Gp, Hq Comd USAF, Bolling AFB.

Evans, Robert R., 3894th Sch Gp, AU, Maxwell AFB.

Anderson, Richard S., 1032d USAF Auditor Genl Sq, Hq Comd USAF, Columbus, O.

O'Brien, Paul, Hq San Bernardino Air Mat Area, AMC, Norton AFB.

Eakins, William W., Hq APGC, ARDC, Eglin AFB.

Marsh, Robert A., Hq AMC, Wright-Patterson AFB.

Wallen, Phil J., Hq Centr Air Def Frc, ADC, Richards-Gebaur AFB.

Crim, Harry C., dy sta Ofc/Def Advisor, US Regional Ofc, No Atl-Mediterranean Area, APO 230, NY.

### MAJOR

Silverling, William H., Fairchild AFB, to 314th ADiv, PacAF, APO 970, SF.

Shaw, Haskell E., Ent AFB, to 414th Materiel Sq, ADC, Oxnard AFB.

To 4135th Strat Wg, SAC, Eglin AFB

Krolinsky, Stephen P., fr Walker AFB.

Fr Biggs AFB:

Cate, Edgar W., jr Flagler, Forrest E.

Hughey, Guy E., jr Eatinger, Kenneth L.

Fr Biggs AFB to Sta Indicated

Eder, John E., jr, 12th Radar Bmb Scorg Sq, SAC, Turner AFB.

Reed, Robert E., 7th Bmbard Wg, SAC, Carswell AFB.

Hamm, Paul J., dy sta Frobisher AB, Canada.

Gessner, Herman W., Hq Air Rsch&Dev Comd, Andrews AFB.

Chadbourne, W. R., jr, 72d BmbWg, SAC, APO 845, NY.

Cameron, Donald, 819th ADiv, SAC, Dyess AFB.

Fr Andersen AFB to Sta Indicated

Frederick, William P., 396th AB Gp, SAC, F E Warren AFB.

Jacobs, Michael C., dy sta Det 865, St Michael's College, Winoski Park, Vt.

### A TAC "First"

... First navigator in the Tactical Air Command to receive the newly created "Master Navigator" rating is Maj. Austin Nielsen, of TAC Headquarters at Langley AFB, Va.

Last week's issue of The Journal reported the first award of the new rating in SAC to Maj. Jack Reiter of Offutt AFB, Nebr.

Fr Wash, DC to Sta Indicated

Bower, John A. B., Hq 1090th USAF Sp Rptg Wg, Hq Comd USAF, Sandia Base.

Romaine, Owen W., Hq USAFE, APO 638, NY.

McDonald, William A., Hq AMC Aeronautical Sys Cn, AMC, Wright-Patterson AFB.

Vandergrift, James D., jr, dy sta No Pac Region AFIR, Portland, Ore.

Mann, H. C., Hq 552d AEW Con Wg, ADC, McClellan AFB.

Sims, William M., jr, Hq 839th ADiv, TAC, Sewart AFB.

Parsons, Marion P., Hq AFMTC, ARDC, Patrick AFB.

Wells, Charles R., jr, dy sta Space Track Ofc, LG Hanscom Fld, Mass.

Tucker, Leland C., Hq APGC, ARDC, Eglin AFB.

### CAPTAIN

Carman, Horace R., Farmingdale, LI, NY, to 2712th Maint Gp, AMC, APO 323, SF.

Jeffers, Ullie H., jr, Seymour Johnson AFB, to Hq AC&SC, AU, Maxwell AFB for CI 60.

Pons, James T., Hq 3882d Sch Gp, AU, Gunter AFB.

Fr Biggs AFB to Sta Indicated

Williams, Lyle W., 3910th Cmbt Sprrt Gp, SAC, APO 179, NY.

Meloy, Bill G., 42d BmbWg, SAC, Loring AFB.

Hertel, Rodney M., 874th Acft Contr&Wng Sq, MATS, APO 286, NY.

Townsend, Roger L., 43d Air Rflg Sq, 36th ADiv, Davis-Monthan AFB.

To 4135 Strat Wg, SAC, Eglin AFB:

Dresser, Ralph C. Mellgren, Pat L.

Deckman, Clayton H. Brennan, Harold J.

Irwin, Kenneth C. Legrand, Charles E.

Christopher, W. E. Goldstein, William A.

To 72d Bmb Wg, SAC, APO 845, NY:

Tolsma, Charles S. Petree, Harold W.

Naranjo, Anthony C. Creech, Ray T.

Adams, C. S., jr

Fr Walker AFB to Sta Indicated

Evans, Earl E., dy sta Stanford Univ.

Serverson, Orlando W., 4134th Strat Wg, SAC, Mather AFB.

### 1ST LIEUTENANT

Rolen, James D., Tinker AFB, to 3301st Pt Tng Gp (Contr Prim), ATC, Moore AB.

Nichols, Dennis E., Fairchild AFB, to 6940th Tech Tng Gp, ATC, Goodfellow AFB.

Nichols, David L., McGuire AFB, to 3301st Pt Tng Gp (Contr Prim), Moore AB.

Murray, Billy F., Ent AFB, to 46th Air Def Msl Sq, ADC, McGuire AFB, w/120 days

e/r at 4751st Air Def Msl Wg, Eglin AFB.

Cortelyou, George B., Walker AFB, to dy sta Univ/Okla, Norman.

Munie, Irene J., Brookley AFB, to 4082d USAFH, APO 677, NY.

Fr Biggs AFB to Sta Indicated

Derhammer, Ned E., 7th Bmb Wg, SAC, Carswell AFB.

To 4135th Strat Wg, SAC, Eglin AFB:

Perry, William J. Ruck, Robert L.

Bernasconi, L. H. Schuler, Larry L.

Cummings, Gerald R. Hankins, Harry R.

Fox, Robert W. Alexander, Edwin A.

### 2D LIEUTENANT

Wegner, Allen D., Walker AFB, to 3401st Sch Sq, 3380th Tech Tng Sch, ATC, Keesler AFB, as stu.

—Continued on page 21

## Army, Navy, Marines Test Vortex Chute; USAF Works On Scalloped Edge Model

The Army, Navy and Marine Corps are evaluating a parachute with rotating, sail-like blades its proponents say could be instrumental in reducing losses of lives of paratroopers and pilots.

The parachute (development of which was reported in THE JOURNAL of 6 Dec., 1958) is seen also as offering an answer to the problem of resupplying isolated Marine Corps troops engaged in "vertical assault" operations and recovery of high speed missiles. The chute also is expected to be used for breaking high-speed jets which have touched down for a landing.

Known as the Vortex Ring Parachute, the new model consists of four nylon panels connected at their vortex by shroud lines leading to a ball-bearing swivel. In use, the four cloth blades autorotate like the rotors of a helicopter.

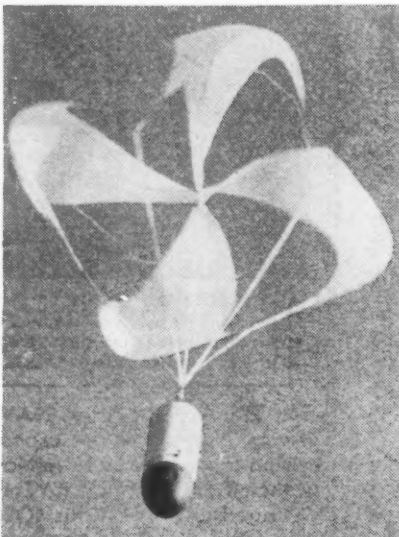

The novel chute was designed by David T. Barrish, New York aeronautical engineering consultant, and was developed with the financial assistance of Laurance S. Rockefeller.

The Army is particularly interested in the Vortex Ring Chute because it collapses as soon as a trooper alights on the ground. This feature would eliminate the danger of dragging.

The Army Quartermaster Research Engineering Command at Natick, Mass., has conducted a number of tests of the chute and has found the "results very encouraging." A three-day test was concluded at Ft. Devens, Mass., 30 January. During this series, the Army dropped loads weighing up to 200 pounds.

Other features of the Vortex Chute that appeal to the Army are its inherent stability during descent, its low shock effect upon opening and the fact that it has little tendency to glide or swing from side to side.

Because the chute collapses upon ground contact, the Army feels that troopers will be able to slip out of the harness more quickly and be ready for

immediate combat. The fact that the chute collapses readily also will be of great advantage to pilots forced to eject over water.

The Navy is evaluating the Vortex Chute at the Naval Parachute Unit, El Centro, Calif. Studies are being made of the relative rates of descent for varying weights.

The Marines Corps has made tests at its Development Center at Quantico. A Marines Corps spokesman said the Corps "is very much interested" in its possibilities which could have application in delivering food and ammunition from low-level, high-speed jet planes to Leathernecks in combat. The Corps has made high-speed deliveries of special

—Continued on next page

## Congress Guards

## Alaskan Flight Pay

Seven Air Force officers receiving flight pay because they were serving "outside the United States" in areas where it was not always practical for them to fly, will continue to receive such pay even though they are now "inside" the United States.

The seven—whose identities were not disclosed—are on duty in Alaska.

Since 1954, military personnel whose particular assignment "outside the U. S." makes it impractical to participate in regular and frequent aerial flights, have been allowed to receive flying pay.

But, since January, when the 49th State entered the Union, officers in Alaska have been barred from receiving the added pay.

The Defense Department asked for, and the House Appropriations Committee approved, an amendment to provide that such payments can be made to those serving "outside the United States, or in Alaska."

## Test Spinning Chute

From preceding page—

containers containing up to 500 pounds of combat supplies. "It appears to be very durable," a Corps spokesman said.

In addition to being interested in the Vortex Chute's possibility of increasing chances of pilots ejecting from speeding planes, the Navy also is studying its application to recovery of target drone missiles weighing up to 600 pounds.

The Vortex Parachute weighs approximately one-third less than conventional personnel canopy chutes and packs into a harness one-third the size of regular chutes. These features make it easier for pilots to move in cramped cockpits.

At the same time, the reduced weight and size of the Vortex Chute may permit the Navy to employ target drone missiles at greater ranges.

The Navy said it expects to complete its evaluation by 1 July.

The Air Force has examined the Vortex Chute but has decided to stick to its own development—the Glide Personnel parachute. Unlike conventional canopy-type chute, the Air Force chute has scalloped edges to reduce the bone-jarring shock occurring when a pilot ejects from a fast-moving jet at low altitude.

The scalloped-edge Glide Personnel chute opens more quickly than the conventional chute. The new Air Force chute—developed by the Air Research and Development Command, is being phased in to use as conventional chutes are replaced.

Another ARDC innovation is development of a multi-colored chute that permits a downed pilot to hide from the enemy or to signal to rescuers. This chute has panels divided into four colors: snow white, desert tan, vegetation green, and orange. If a pilot is downed over enemy territory, he is able to fold the panels of the chute so that they blend with the terrain. If he wants to signal to friendly troops he simply rearranges the folds of the chute so the orange section is visible from the air.

## Maj. Winter Heads Biggs Sq.

Maj. Ferdinand J. Winter has been assigned as Commander of the 336th Bombardment Squadron at Biggs AFB, Tex., replacing Lt. Col. William H. Cooper, who has become the 95th Bomb Wing Training Division Chief.

Major Winter has been assigned to the 95th Bomb Wing since late 1953 when he arrived from Travis AFB, Calif. He commanded a select crew for over three years and was assigned as a Standardization Crew Aircraft Commander for more than two years. He was also aircraft commander on the last Air Force B-36 crew, R-95, during its flight from Biggs to Amon Carter airport earlier this month.

The Winters reside at 9515 Edgemere Boulevard with two of their three children, Julianne and John. A daughter, Jeri Lou, is married to El Paso television personality Howell Eurick. The Winters have three grandchildren.

## Air, Army, Navy War College Graduates Receive New Assignments

THE following Air Force officers who will graduate from the '58-'59 class at the Air War College, Maxwell AFB, Ala., Army War College, Carlisle Barracks, Pa., and the Naval War College, Newport, R. I., will receive new assignments as indicated herewith. Last week's issue of THE JOURNAL published the new duties for the National War College and Industrial College graduates:

Abbott, Nathan M., To be announced.  
Abel, George L., Deputy Ch. Air Defense Div. D/Rqmts. DCS/D.  
Ansell, Norris J., Ch. Target Selection Sec. Atomic and Targeting Br. Air & Spec Opns Div. Hq SHAPE, Marly-Le-Roi, France.  
Arnold, Edson P., Director of Plans, 7th Air Div. South Ruislip, England.

Baker, Basil L., Exec. Hq AF Acctg & Finance Ctr. Denver.  
Ballard, Roy W., Chief, Lincoln Project Office, Cambridge Research Center, Lawrence G. Hanscom Fld, Bedford, Mass.

Barnes, Richard W., Ch. Domestic Standardization Div. Asst for Standardization, DCS/D.  
Beall, Lewis S., Deputy Comdr, 5010th Air Base Wg. Eielson AFB, Fairbanks, Alaska.

Best, Jack H., Comdr, 81st Support Gp, 3d AF, Bentwaters, England.  
Beth, Elman, Jr., Ch. Mgmt Engineering & Improvement Br. Organization Div. D/Manpower and Organization, DCS/O.

Black, Shirley N., Dir of Accounting & Finance, A-6 Hq PACAF, Hickam AFB, T. H.  
Blood, Gordon F., Asst for Forces, Prgrms & Procedures Div. D/Prgrms, DCS/P&P.

Boatright, Loyd A., Ch. Data Proc Div. Compt. OCAMA, Tinker AFB, Okla.  
Bonnot, Charles D., Ch. Atomic & Targeting Br. Air & Spec Opns Div. Hq SHAPE, Marly-Le-Roi, France.

Bowers, William H., Exco Secretary, AFIT, W-P AFB, Ohio.  
Bowley, Albert J., Dir of Opns, 3d Air Div. Andersen AFB, Guam.

Bradford, James W., Comdr, 6148th AF Advisory Gp, 314th Air Div. Ogan, Korea.  
Bray, Leslie W., Jr., Dir of Opns, 483d Trp Carr Wg, 315th Air Div. Ashiya AB, Japan.

Brown, Harvey N., Dep Comdr for Opns, 19th M Bomb Wg, Homestead AFB, Fla.  
Brues, Sidney C., Asst Ch. Advanced Wpn Systems Gp, Dep Dir for War Plans, D/Plans, DCS/P&P.

Burch, George D., Staff Judge Advocate, Hq 5 AF, Fuchu Air Sta, Japan.  
Buck, George T., Jr., Ch. Aero Dynamics Div. ACS/Guided Missiles.

Campbell, William H., Ch. Research Analysis Br. Systems Plans Div. D/Log Plans, DCS/M.  
Carroll, Joel A., Jr., Dep Comdr, 3d Air Div. Andersen AFB, Guam.

Chapman, John W., Ch. Unconventional Warfare Br. Subsidiary Plans Div. Dep Dir for Policy, D/Plans, DCS/P&P.

Cobas, Mitchell A., Ch. Bombardment Acft Br. Acft Div. D/Maintenance Engineering, DCS/M.  
Coleman, Harry S., Asst Dep Chf of St. Plans & Opns, Hq PACAF, Hickam AFB, T. H.

Cook, Guy, Jr., Comdr, 1608th Air Transport Gp, EASTAF, Charleston AFB, S. C.  
Cornett, Billy, Ch. Plans Br. Opns Div. Hq 5 ATAF, Vicenza, Italy.

Cumiskey, William T., Dir of Mat, 4082d Strat Wg, 8th AF, Goose AB, Labrador.  
Daniel, David E., Dep Comdr, 1611th Air Transport Wg, EASTAF, McGuire AFB, N. J.

Davis, William M., Dir of Tech & Support Systems, AMC Aero Systems Center, W-P AFB, Ohio.  
Dixon, Robert J., Chief Strategic Studies Section, Plans Br. P&P Div. SHAPE, Marly-Le-Roi, France.

Donics, William, Comdr, Mediterranean AACS Region, AACS, Wheelus AB, Libya.  
Donett, Donald L., Ch. Analysis Div. Research Dir, AF Special Wpn Center, Kirtland AFB, N. M.

Douthwaite, William T., Jr., Ch. Combat Opns, Hq 314 Air Div. 5 AF, Ogan AB, Korea.  
Dresser, Cornelius S., Dir, PAC Coord Ctr, Philippine Administration, Clark AFB, P. I.

Duncan, Oliver L., To be announced.  
Falletta, Charlie, Asst Ch. Strategic Plans Br. Joint Plans Div. Dep Dir for War Plans, D/Plans, DCS/P&P.

Fitzgerald, John E., Jr., Dir of Ftl Facilities, EAME AACS Area, AACS, Wiesbaden, Germany.  
Gaston, Allen B., Dep Chf, USAF Air Sect, MAAG-France, Paris.

Glover, Walter P., Jr., Ch. Elec Components Lab, Dir of Labs, WADC, W-P AFB, Ohio.  
Gore, Richard D., Ch. Manned Systems Br. Tactical Div. D/Opns, DCS/O.

Gostick, Lee V., Dep Chf, Air Defense Gp, D/R&D, DCS/D.  
Graham, Donald W., Dir of Strategic Systems, AMC Aero Systems Center, W-P AFB, Ohio.

Gravette, Edmond, Ch. Prgm Control, 4605th Air Def Gp (ADSID), Lawrence G. Hanscom Fld, Bedford, Mass.  
Harrell, John W., Jr., Ch. Munitions Br. Strategic Div. D/Opns, DCS/O.

Harwick, George L., Dir. Finance & Accounting, Hq TAC, Langley AFB, Va.  
Hatch, Horace E., To be announced.

Hinkle, Carl C., Jr., Ch. Special I. Training Devices Div. D/Pers Proc & Tng, DCS/P.  
Holland, Ralph T., Dep Comdr for Maint, 5th HB Wg, 15 AF, Travis AFB, Calif.

Howe, William J., Asst Ch. Air Def Br. Unilateral Plans Div. Dep Dir for War Plans, D/Plans, DCS/P&P.  
Howell, Joseph W., Ch. Aeronautics Div. D/Rsch & Dev, DCS/D.

Hughes, George D., To be announced.  
Jack, William A., Ch. Equip Br. Opnl Support Div. D/Rqmts, DCS/D.

John, Ernest, Dep Dir, Office of OCB Affairs, OASD (ISA), OSD.  
Johnson, George M., Jr., Dep Ch. Plans & Policy Div. Asst for Mutual Security, DCS/M.

Kale, James S., Ch. European Br. Combined Plans Div. Dep Dir for War Plans, D/Plans, DCS/P&P.  
Kennedy, Thomas B., To be announced.

Kirkendall, James F., Mdr. Military Studies & Liaison Div. Weapons Systems Evaluation Gp, OSD.  
Koser, Jack D., Dep Ch. Missiles Div. D/Mat Prgrms, DCS/M.

Kreidler, Howard E., Ch of St. IADF, Keflavik Arpt, Keflavik, Iceland.  
Lance, Paul C., Dir. Plans & Hospital, Office of Surgeon, Hq USAFE, Wiesbaden, Germany.

Lee, Robert E., Chf, Tanker WSPO, Dir of Strategic Systems, AMC Aero Systems Center, W-P AFB, Ohio.  
Lentz, Charles W., Chf, Weapons Plans Div. Dep Dir for War Plans, D/Plans, DCS/P&P.

Lewis, Leo C., Dep Ch. Control Div. D/Opns, Hq SAC, Offutt AFB, Neb.  
Lewis, Leon G., Comdr, 82d Ftr Gp (Air Def), CADF, Minot AFB, N. D.

Little, Edwin L., Dir. Sup & Svcs, DCS/M, Hq AAC, Elmendorf AFB, Alaska.  
Lockard, Chancy H., Dep Ch. Mil Pers Div. Hq SAC, Offutt AFB, Neb.

Lockhart, George M., Chf, Senate Liaison Office, Office of Legislative Liaison, OSAF.  
Low, Andrew S., Jr., Chf, Strategic Air Gp, D/Rsch & Development Division, Lawrence G. Hanscom Fld, Bedford, Mass.

MacDonald, William B., Ch. Penetrations Systems Br. Strategic Air Div. D/Rqmts, DCS/D.  
Mangan, James H., Chf, Classification Standards Br. Career Development Div. D/Pers Ping, DCS/P.

Marlin, Winston W., Dir of Opns, 49th Tac Ftr Wg, Stain AB, France.  
Matson, Wayne, Chf, Plans Div. DCS/M, Hq USAFE, Wiesbaden, Germany.

May, Britt S., Dep Dir, Air Warfare Systems Courses, Hq Air Command & Staff College, Maxwell AFB, Ala.  
McLaughlin, George W., Ch. Aircraft Div. Air Defense Systems Integration Division, Lawrence G. Hanscom Fld, Bedford, Mass.

Miller, Victor, Jr., Dir of Air Opns, Hq NORAD—North America Region, St. Hubert RCAP Station, Canada.  
Moench, John O., Comdr, 6170th Air Base Sq, 314th AD, Seoul AB, Korea.

Moll, Robert G., Dep Comdr, European Office, Brussels, Belgium.  
Moore, Wilson, Dep Chf, Resources Control Div. D/Opns, DCS/O.

Morris, Frederick E., Jr., Chf, Supporting Resources Div. Asst for Development Programming, DCS/D.  
Morrison, John E., Jr., Mdr. Procedures Publication Br. Systems Support Div. J-6, JCS.

Muldron, Bernard R., Dep Dir, Opns & Tng, DCS/O, Hq USAFE (ADVON), Ramstein, Germany.  
Munroe, George D., Jr., Technical Exec, Dir of Advanced Technology, DCS/D.

Napier, John G., Dep Chf, Bases & Units Div. D/Opns, DCS/O.  
Nicholas, Judson D., Jr., Compt, Amarillo Tech Tng Center, Amarillo AFB, Tex.

O'Connor, Edmund F., Chf, Missiles Div. D/Proc & Prod, DCS/M.  
Oeburn, Earle L., Chf, Curriculum & Inst Div. SOS, Hq Air Command & Staff College, Maxwell AFB, Ala.

Parsons, Herrell H., Chf, Atomic Opns Sect. Air & Spec Opns Div. Hq SHAPE, Marly-Le-Roi, France.  
Perry, Thomas E., To be announced.

Petersen, Tracy J., Asst DCS/Plans, Hq MATS, Scott AFB, Ill.  
Peterson, Chesley G., Comdr, 8th Tac Ftr Wg, 5 AF, Itazuke AB, Japan.

Peterson, Marshall R., Jr., Chf, Air Traffic Control Br. Flight Div. D/Opns, DCS/O.  
Peterson, Robert L., Dir of Mil Pers, DCS/P, Hq USAFE, Wiesbaden, Germany.

Pfeiffer, George, Jr., Dir of Material, 3d Air Div. Andersen AFB, Guam.  
Pierce, Russell K., Jr., Comdr, 10th Weather Gp, AWS, Fuch Air Sta, Japan.

Pickett, Donald L., Dep Dir of Research, Air Force Special Weapons Center, Kirtland AFB, N. M.  
Probst, John R., Weapons Dir, Detroit Air Defense Sector, EADFC, Custer AB, Battle Creek, Mich.

Roberts, Frederick C., Vice Comdr, San Francisco Air Defense Sector, WADP, Beale AFB, Calif.  
Reches, Louis A., III, Comdr, 4083d Air Base Gp, 8th AF, Thule AB, Greenland.

Sanders, Marshall E., Chf, Foreign Military Rights Br. International Affairs Div. Dep Dir for Policy, D/Plans, DCS/P&P.

Saunders, Patrick H., Asst DCS/Personnel, Hq AU, Maxwell AFB, Ala.  
Seepansky, Joe T., Dep Asst Chf of Staff, Opns, A-3, Hq PACAF, Hickam AFB, T. H.

Scott, Franklin H., Chf, Tactical Br. Opns & Inspection Div. D/R&M, 1002d Inspector General Gp, Norton AFB, Calif.

Shoop, Richard R., Dep Ch. Acft & Guided Missiles Programming Div. D/Prgrms, DCS/P&P.  
Simpson, Harold B., Asst for Finance Mgmt Sys Development, Dep for Compt, Hq TAC, Langley AFB, Va.

## Maj. Reynolds Heads 1900th

The 1900th Airway and Air Communications Service Squadron at Biggs AFB, Tex., has a new commander, Maj. John R. Reynolds. He replaced Maj. Ralph J. Schrecke, headed for Brize-Norton AFB, England, to command another AACS unit.

Major Reynolds, who arrived at Biggs from Upper Hayford, England, is married to the former Miss Jean Larsen. The Reynolds have two children, John, 10, and Christina, 3.

Founded by former servicemen in 1924

## The Nation Can Have A Modern Airlift

The interest and industry being shown by Senator A. S. Mike Monroney (D-Okla.) in behalf of the nation's airlift needs, both military and civilian, substantially improves the prospect of a modernization in this vital and neglected area.

As Chairman of the Aviation Subcommittee of the Committee on Interstate and Foreign Commerce, Senator Monroney is known as the Senate's authority on civil aviation, but his interest in the military needs is no less intense. He feels, and has told the Senate on numerous occasions, that the airlift needs of the Armed Forces have been "completely disregarded" and he has expressed dismay that the Administration has neglected to spend the \$140-million the last Congress appropriated to buy modern aircraft for this purpose.

As reported on the first page of this issue, the Senator is working assiduously on a plan for the procurement of 400 modern, high-performance cargo aircraft, 100 for MATS and the balance for the civilian airlines. The latter would be both a strong contribution to the national economy and constitute a valuable reserve for the military forces.

The agenda for Senator Monroney's plan provides that an agreement must first be reached between the military and civilian operators on an aircraft which would meet both of their needs. Consideration of the financing of the project would then be undertaken.

As to this phase of the project, we recall the plan put before the Dallas meeting of the Air Force Association last September (see THE JOURNAL of 27 September 1958) by Dr. Allen R. Ferguson, Director of Research at the Northwestern University Transportation Center. Dr. Ferguson, one of the nation's outstanding authorities on transportation, proposed that the Air Force enter into contract with a private firm to purchase modern air transports and rent them to the government under agreed conditions and at agreed rates. This, he contended, would obviate the immediate appropriation of large sums of money, yet would meet the airlift requirement rapidly.

A similar plan, operated either by private capital or by a government controlled corporation, would certainly be feasible to finance Senator Monroney's proposal.

The Department of Defense and the Administration admit the need for improved airlift but have given it low priority under the contention that the need is greater in other areas. We hope, now that Senator Monroney is showing the way, they will cooperate in working out a plan which will fill this gap in our defenses.

## Second Class Treatment For Number One Factor

The Defense Department Reorganization Act of 1958 has led to a disturbing paradox on the military manpower front. At the same time every responsible Pentagon official continues to insist that, despite fantastic technological gains, the dedication, skill, and courage of the individual fighting man remains the key to effective national defense, there is a downgrading of manpower leadership.

The Reorganization Act has forced the Services to cut back the number of Assistant Secretaries. The Army, which for a time had its Under Secretary doubling in brass as the manpower boss, decided that its personnel needs required continued supervision of an Assistant Secretary.

The Air Force met the problem in a different manner. It appointed a Special Assistant for Manpower, Personnel, and Reserve Forces, then explained later that under the law responsibility for Reserve Forces cannot be delegated below the Assistant Secretary level.

The Navy proposes still another tack. The Navy Organization Study proposes that the cutback in Assistant Secretaries be met by the elimination of the Assistant Secretary for Personnel and Reserve Forces. It is proposed, however, that Congress be requested to authorize four instead of three Assistant Secretaries.

If new legislation is needed to assure that each of the Services has an Assistant Secretary in charge of manpower, then the Pentagon should waste no time in admitting that it was wrong when it asked for a reduction from four to three Assistant Secretaries in each Service. Not only

members of the Active Forces and their families, but the Reserve Forces as well, will be concerned that dollar management—the Army, Navy, and Air Force all have Assistant Secretaries for this task—is more important than manpower management.

In the event that Pentagon officials do not take action to assure Assistant Secretaries of Army, Navy, and Air Force for Manpower, Personnel and Reserve Forces, it is to be hoped that Congress will apply pressure to assure top level responsibility for what will always be the number one factor in the Armed Forces.

## Why Not Let Doctors Control Design Of Hospitals?

The control exercised by the Bureau of the Budget over the design and construction of service hospitals, down to such minutiae as the size of waiting rooms and lavatories, is unwarranted and undesirable.

The Medical services of all the Armed Forces, as reported in last week's JOURNAL, are trying their best to improve facilities for out-patient care for Service families. Yet they are hampered in this important work by the insistence of the Bureau of the Budget on dictating the design of service hospitals.

The Budget Bureau has long controlled the design and construction of quarters, laying down rules as to how many cubic feet and how many rooms may be built into quarters for the families of the various grades. Why this monetary control should be extended to the construction of such a technical building as a hospital is beyond comprehension. It seems logical that the professional physicians, surgeons, and nurses who have to use these buildings should have the final say as to how they should be designed and built within the funds allowed.

The other major restriction upon proper out-patient care is the limitation upon the number of physicians. Basing the number of doctors upon a ratio to the number of uniformed personnel would be logical if the forces were always in the field, but when they are largely at posts, stations, and bases accompanied by their families, and when the law recognizes the right of their families to medical care, such a ratio is unrealistic. It would be more logical, as the Air Force contends, to establish a ratio of doctors to the actual population entitled to medical care.

## READERS' VIEWS

### A 60-year Journal Subscriber

■ This is in reference to, and to thank you for your kind letter of 13 February 1959 acknowledging my check for 5 years' renewal at expiration of my current subscription to THE JOURNAL. I have been a constant reader of THE JOURNAL for more than 60 years, and the greater part of which, a subscriber.

Beginning with my pre-Army experience during the years 1899-1901, as a youth of 17, a student at Kansas University, and a member of the Kansas National Guard, I developed aspirations for a Commission in the Regular Army and was able to obtain all information as to what was going on in the Army and the procedure necessary to get a commission from the ranks by reading the ARMY AND NAVY JOURNAL each week in the office of a subscriber, my friend, and Colonel in the National Guard.

Next, during more than 32 years' active service in the Army, I found, as did others, that THE JOURNAL could be relied on as "the official dope." If one read it in THE JOURNAL he knew what to expect days and weeks ahead of the arrival of the official order. For example, if one's change of station order was in THE JOURNAL he started packing up and making his goodbye calls and by the time the official order arrived, he was ready to check out and take off for his new station. It was the same with promotions, changes of any kind in organization, arms, equipment, social affairs

at Posts or Stations, births, marriages, deaths, prospective legislation, court decisions affecting service personnel, and whatever was going on in, or concerning the Armed Services. THE JOURNAL had it then, and still has it, complete, thorough, and accurate, a very necessary adjunct to a professional Serviceman's career.

Last but not least, in 25 years of retirement from active service, I have found that we retired personnel have a staunch friend in THE JOURNAL, which "goes to bat" for us in its columns with timely articles and editorials to keep us from being gypped right and left in matters relating to our time-honored rights and privileges. I just can't get along without THE JOURNAL.

JOSEPH L. TOPHAM, JR., O-1989  
LT. COL., U. S. ARMY-RETIRED

SAN FRANCISCO 22, CALIF.

### Reserve Bonus Measure

■ The new Reserve Bonus Bill now pending is deserved and justified. However, the provision that allows a Reserve to retire and also collect his bonuses is somewhat out of line. If I had the choice of retiring with retirement pay plus a big bonus versus only retirement pay—why even consider USN?

Why not have the bonuses accumulative? If a Reserve puts in 18 years, then the bonuses should be paid only if he is separated for the convenience of the government. Otherwise, he completes his 20, or more, retires and receives only retirement pay; NO bonus at any stage of his career. To the bill in its present form, thanks for the relative pay cut.

Regular Officer

### CE Letter

The Journal has received a letter dated 21 March and signed only "Non-West Point Colonel," replying to previous criticism of general officer appointments in the Corps of Engineers. If the author will communicate with The Journal, telling us his name, we will publish his letter. We will withhold publication of writers' names if so requested, but we must have the names to assure us of the authenticity of the views.

## IN THE JOURNAL

**10 Years Ago**—The transfer of practically all general and station hospitals of the Armed Forces in continental United States to a new United Medical Administration is recommended by the Hoover commission on Government Organization in a report to Congress.

**95 Years Ago**—Committees appointed by the warrant officers of the Navy have been in Washington, urging upon Congress the propriety of giving them rank in the naval service. They ask for the first five years of service the rank of ensign, and after that period that of master.

# Conclusions, General Findings, Recommendations Of Naval Organization Report

From page 7—

and the Deputy Chief of Naval Operations (Air) (Op-05) be transferred to the proposed Deputy Chief of Naval Operations (Development).

(5) That the Fleet Operations Division (Op-33) be continued as at present. Even with the transfer of operational direction of the principal operating forces to the Joint Chiefs of Staff, functions involving the assignment of forces, the accounting of their movements, the control of shipping, and similar functions, must continue to be performed by the Fleet Operations Divisions (Op-33).

(6) That the Director of Naval Communications be given the additional designation of Assistant Chief of Naval Operations (Communications) and be made directly responsible to the Chief of Naval Operations and Vice Chief of Naval Operations, in a relationship analogous to that held by the Assistant Chief of Naval Operations (Intelligence)/Director of Naval Intelligence (Op-92). If this recommendation is accepted, the responsibility of the Assistant Chief of Naval Operations (Communications)/Director of Naval Communications to serve the command needs of the Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03) must still remain an important component of his duties.

It is also recommended—

(7) That the Assistant Chief of Naval Operations (Communications)/Director of Naval Communications be a member of both the Ship Characteristics Board and the Shore Station Development Board.

## 6. Deputy Chief of Naval Operations (Logistics) (Op-04)

(1) That the Chief of Naval Operations give consideration to enhancing the stature of the Ship Characteristics Board by designating it a separate division (Op-42) under the Deputy Chief of Naval Operations (Logistics) (Op-04) and separating its chairman from other duty.

(2) That the present wording in the charters of the Deputy Chief of Naval Operations (Logistics) (Op-04) and the Director of the Shore Establishment Development and Maintenance Division (Op-44), which excludes them from responsibility for naval air activities of the Shore establishment, be deleted. (This is not intended to preclude the shore Establishment Programs Branch (Op-504) from performing the naval aviation aspects of shore station planning.)

(3) That the Deputy Chief of Naval Operations (Logistics) (Op-04) and the Deputy Chief of Naval Operations (Air) (Op-05) determine the personnel necessary to be transferred from the Shore Establishment Programs Branch (Op-504) to the Shore Establishment Development and Maintenance Division (Op-44) to assist in carrying out the naval aviation aspects of shore station plans.

(4) That the Long Range Objectives Group (Op-93) and the General Planning Group (Op-90) be represented on the Shore Station Development Board.

(5) That the Chief of Naval Operations Advisory Board (and its subordinate board, if established) function as a review board for the respective recommendations of the Standing Committee on Shipbuilding and Conversion, of the Ship Characteristics Board, and of the Shore Station Development Board.

(6) That the Chief of Naval Operations consider the establishment of a subordinate board paralleling the membership of the Chief of Naval Operations Advisory Board to assist the latter by preliminary discussion, analysis, and minor actions in matters referred to it.

## 7. Deputy Chief of Naval Operations (Air) (Op-05)

(1) That the position of Deputy Chief of Naval Operations (Air) (Op-05) be continued and that he retain cognizance of naval aviation plans, programs, requirements, training, and safety.

(2) That, in order to provide over-all integration and consolidation within the Office of the Chief of Naval Operations, the following be transferred from the Deputy Chief of Naval Operations (Air) (Op-05) to the offices indicated:

Coordinator, Naval Air Reserve (Op-05R) to Deputy Chief of Naval Operations (Personnel and Naval Reserve) (Op-01)

Guided Missiles Division (Op-51) to proposed Deputy Chief of Naval Operations (Development)

Flight Services Division (Op-53), less Civil Aviation Liaison Branch (Op-532) to Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03)

Air Warfare Division (Op-55) to proposed Deputy Chief of Naval Operations (Development) and Deputy Chief

of Naval Operations (Fleet Operations and Readiness) (Op-03)

Naval Weather Service Division (Op-58) to Deputy Chief of Naval Operations (Fleet Operations and Readiness) (Op-03)

## 8. Deputy Chief of Naval Operations (Plans and Policy) (Op-06)

No recommendations.

## 9. Assistant Chief of Naval Operations (General Planning)/Director, General Planning Group (Op-90)

(1) That the Assistant Chief of Naval Operations (General Planning)/Director, General Planning Group (Op-90) be renamed Assistant Chief of Naval Operations (Programs and Analysis)/Director, General Planning Group (Op-90).

(2) That the Progress Analysis Group (Op-09D) be transferred to his cognizance.

(3) That definite channels be established for the input of fiscal and other statistical information needed for the continuous analysis of programs and that an analysis technique, such as the line-of-balance technique, be established as a modus operandi for this office.

(4) That a management control center for the visual display of the progress of programs be developed and established under this Assistant Chief of Naval Operations and be made available to all members of the Office of the Chief of Naval Operations organization.

## D. Headquarters, U. S. Marine Corps

That the Commandant of the Marine Corps adjust, as necessary, Marine Officer assignments to the Office of the Chief of Naval Operations and the assignment of functions under cognizance of the Division of Aviation, Headquarters, U. S. Marine Corps, in order to insure consistency with such changes in the organization of the Office of the Chief of Naval Operations as are recommended in this report and as may subsequently be approved.

## E. Research, Development and Weapons System Planning

(1) That the Office of Naval Research continue to be assigned the primary responsibility for initiating and conducting basic research for the Navy and for maintaining contacts with scientific research organizations outside the Department of the Navy, as well as for making contracts for the bureaus with educational institutions and non-profit organizations.

(2) That the bureaus conduct a limited amount of basic research as at present and that the Chief of Naval Research be kept fully informed by the bureaus of the nature and progress of such research.

(3) That the Office of Naval Research, in cooperation with the bureaus, supplement their applied research as necessary to the attainment of completed programs.

(4) That the bureaus be permitted to conduct a limited amount of independent applied research in technical areas under their cognizance.

(5) That the functions of scientific data collection and development coordination relating to research and development programs (including fiscal aspects), now performed by the Office of Naval Research (as prescribed by the Secretary of the Navy), together with the associated personnel and equipments, be transferred to the proposed Office of the Deputy Chief of Naval Operations (Development) and that data collected be made fully available to all offices participating in the Navy research and development effort.

(6) That the Office of Naval Research be relieved of responsibility for over-all administration of research and development appropriations and that the new appropriation "Research, Development, Test, and Evaluation, Navy," be administered as follows:

(a) The Assistant Secretary of the Navy (Research and Development) maintain over-all cognizance of the "Research, Development, Test, and Evaluation, Navy," appropriation.

(b) The Office of Naval Research and the bureaus individually perform the detailed accounting for the funds allocated to them under their "Research, Development, Test, and Evaluation, Navy," appropriation sub-heads.

(c) The Office of the Comptroller of the Navy perform, as a staff function for the Assistant Secretary of the Navy (Research and Development), the budgeting, accounting, and reporting for the total "Research, Development, Test, and Evaluation, Navy," appropriation.

(7) That the Chief of Naval Operations be provided with fiscal information by the

Comptroller of the Navy and that the Chief of Naval Operations maintain facilities in the proposed Office of the Deputy Chief of Naval Operations (Development) for the coordination of this information in support of his planning and programming responsibilities.

(8) That the Assistant Secretary of the Navy (Research and Development) utilize the Navy Research and Development Committee, established by the Secretary of the Navy, to assist him in the formulation of policy and the development of procedures in administering the over-all research and development program of the Department of the Navy.

## F. The Bureau Organization

(1) That the Bureau of Ordnance and the Bureau of Aeronautics be combined to form a Bureau of Naval Weapons.

(2) That enabling legislation be sought to provide for the consolidation.

(3) That a senior officer not presently connected with either of the bureaus to be combined be appointed by the Secretary of the Navy to plan the consolidation in detail; that he be provided with a small staff of individuals to be selected from these bureaus and from such other sources as he may determine; and that he report directly to the Under Secretary of the Navy, who should be assigned the responsibility for effecting the consolidation.

## G. The Shore Establishment Relationships

### 1. General Administration.

That immediate action be taken to complete the revision of General Order No. 19 so that it may be approved and promulgated at an early date.

### 2. Naval Districts and the Sea Frontiers.

(1) That the functions of the Western Sea Frontier Commander and the Commandant, TWELFTH Naval District, including their respective headquarters organizations, be combined.

(2) That the functions of the Eastern Sea Frontier Commander and the Commandant, THIRD Naval District, including their respective headquarters organizations, be combined.

(3) That the staff structure and functions of each newly combined headquarters organization be so tailored as to facilitate expansion and decentralization in time of war together with concurrent execution of tasks set forth in existing war plans.

## H. Officer Career Specialization

(1) That the restricted line designation, which is composed of the following specialties, be eliminated:

- (a) Engineering Duty.
- Engineering Duty Specializing In Ordnance Engineering.
- (b) Aeronautical Engineering Duty.
- Aeronautical Engineering Specializing In Aerology.
- (c) Special Duty:
- Communications.
- Hydrography.
- Law.
- Naval Intelligence.
- Photography.
- Psychology.
- Public Information.

(2) That, in lieu of the restricted line designation, a Naval Technical Corps be established as a staff corps of the Navy with subdesignations therein by specialties and that the members of the Technical Corps wear, in lieu of the star of the line, a device

distinguishing them from the members of the line and the members of the other staff corps of the Navy.

(3) That the Naval Technical Corps contain subdesignations to include:

(a) The specialty of Design Engineering and Research, encompassing Naval Construction and Engineering, Advanced Nuclear Engineering, and all fields of engineering involved with the development of naval weapons systems.

(b) The specialty of Aerology.

(c) The specialty involving Communications.

(d) Those present special duty officers who do not fall into the above categories and who do not elect to transfer to the line.

(4) That present restricted line officers be given the choice of either—

(a) Transferring to the line, or

(b) Transferring to the Naval Technical Corps.

(5) That equality of opportunity for promotion and career development be safeguarded for present restricted line officers who transfer either to the line or to the Naval Technical Corps.

(6) That an immediate as well as an annual review be made to determine the requirements, including number, specialty, and billet structure, for officers in all categories of the Naval Technical Corps.

(7) That the officers necessary to fill immediate requirements of the Naval Technical Corps be obtained through transfer from the present restricted line, and that the Corps subsequently be maintained at the desired strength by transfer from the line of those qualified officers who request these assignments.

(8) That the officer billet structure be adjusted annually as necessary to provide for maximum use in the technical bureaus and offices of those line officers who have acquired special qualifications through postgraduate education and appropriate tours of duty, thus permitting line officers gradually to fill many of the billets heretofore filled by restricted line officers.

(9) That action be taken to insure that the importance of the acquisition of specialties by line officers, in addition to their general line qualifications, be fully recognized throughout the Navy, and that officers acquiring such specialties be recognized in personnel administration and selection board criteria as being of greater value to their service.

(10) That immediate and aggressive action be taken to increase substantially the number of line officers receiving postgraduate education.

(11) That legislation be obtained to permit the postgraduate education of increased numbers of line officers in law in recognition of the importance of an understanding of law to command and in administration in the Navy.

(12) That action be taken to effect amendment to title 10, U.S. Code, as necessary to conform to the recommendations contained herein and that the amendment specifically authorize—

(a) Appointment of male officers who are on the active list of the Navy in a staff corps in a grade not above commander to the active list in the line of the Navy in the same grade; and

(b) Appointment of male officers who are on the active list in the line of the Navy in a grade not above commander to the active list of the Navy in the Supply Corps, the Civil Engineer Corps, or the proposed Technical Corps, in the same grade without regard to age.

**STATEHOOD FOR ALASKA AND HAWAII** may increase the "foreign duty pay" item in the military budget. Here's why. In the past, foreign duty pay of up to \$22.50 per month for enlisted personnel (officers don't receive it) was paid for duty in Alaska and Hawaii, except for native Alaskans and Hawaiians. With Statehood for these areas, however, it's anticipated that Alaskans and Hawaiians now will be entitled to foreign duty pay when they are serving at "home," the same as military personnel from any other State. The Comptroller General has been asked to rule on the tentative Pentagon determination.

**PUERTO RICO IS ANOTHER AREA** where "foreign duty pay" is authorized. But since it will not have Statehood, residents of Puerto Rico won't be able to collect extra pay when serving there. At one time, Puerto Ricans serving in the U.S. could receive "foreign pay," but that has been eliminated.

**TESTIMONY OF NAVY CHIEFS** during the past decade concerning the critical need for increased specialization is certain to be recalled by Chairman Carl Vinson of the House Armed Services Committee if legislation is proposed to eliminate specialist designators (see page one) and create a Naval Technical Corps. Opposition to the Navy plan also is certain from the powerful American Bar Association.

**NEWSMEN WILL BE CONCERNED** that the proposed loss of the Public Information specialty would mean decreased interest by young naval officers for PubInfo billets. Under the proposed set-up, repeated PubInfo assignments could hurt promotion chances when an officer knows that he must compete with contemporaries who have had opportunity for longer service at sea. There is no question that the Navy plan is headed for rough waters.

**ALL MEMBERS OF THE ARMED FORCES**, active and retired, will hope that the Defense Department does not treat lightly the renewed suggestions being made on Capital Hill (Page 1) for contributory retirement studies. The Pentagon must be prepared to present a forceful case in support of the traditional military retirement system.

**WHAT WILL BE FEARED** by the Services is a continued Pentagon forced retreat from the fight to preserve pay rights for military people. A major march to the rear was taken when the Defense Department, under Administration pressure, did not support equitable pay treatment for military personnel retired prior to 1 June 1958, when the new Pay Act went into effect.

**SCORES OF BILLS INTRODUCED THIS SESSION** have sought to remove the retired pay inequity. The Pentagon has drafted a position paper on this legislation and has submitted its answers to the Budget Bureau for "coordination." There has been good reason to hope, in view of the Congressional interest and the 1960 elections, that the Defense Department would reverse its previous stand. Should the Pentagon refuse to do this and acquiesce to the present situation, the time-honored principle of linking retired pay to active duty pay will have been abandoned. This would open the way to new assaults on retired pay, including the threat of a contributory system that would actually mean a pay cut for every person on active duty.

**IN BYGONE TIMES**, when the Services were in charge of Congressional liaison, the retired pay issue certainly would have been met head-on. That is less certain now under DoD supervision. There is no question that Senator Stennis and others will continue to prod for contributory retirement pay studies. The Pentagon should not wait until it's too late to present a counter-attack. Now is the time for Secretary McElroy, the Service Secretaries, and the Joint Chiefs of Staff to state their case. This is a situation that can't be brushed under the carpet and forgotten.

**THE PENTAGON HAS COMPUTED** the pricetag on the operations in Lebanon and Taiwan last year, \$192.8 million. Extra expense for the Army is calculated at \$47.5 million; Navy and Marine Corps, \$83 million; and Air Force, \$62.4 million. All but \$79 million of the total will be absorbed by the Defense Department from previously appropriated funds. The Pentagon previously had calculated the extra cost at about \$109 million. Actually, it's always a "horseback opinion" in setting costs for such operations. Depending on the ground rules that are set, the estimates can vary by many millions of dollars.

**A NON-RETURNABLE WEAPON CALLED "THE BOOMERANG"**—actually a baby helicopter—is being proposed as an anti-tank weapon. The Kaman Aircraft Corporation has built a full-scale model, and hopes for R&D funds. The "Boomerang," (its name is somewhat a mystery, since it's a one-way weapon) is a flying bomb, which weighs about 70 pounds and is fitted with rotor blades about six feet in diameter. The "Boomerang" would be guided to its target by remote control, and would employ an infra-red homing device.

**THE NAVY WANTS TO BUILD** a \$200,000 aircraft hangar at McMurdo Sound. At present, it takes about three or four hours to get planes ready to fly in the bitter Antarctic cold. The Navy says a hangar permit "quick preflight operations" and thus speed air-rescue work.

**THE PENTAGON IS UNDER PRESSURE**—from Congress and the clock—to decide whether the Air Force will be given the go-ahead to withdraw its students (see page 1) from the Army Language School at Monterey, Calif. The Air Force, making the point that it can save money by use of civilian facilities, has planned no assignments to Monterey after 1 July. The Army argues that the loss of Air Force students will raise the per capita costs at its famed language school.

**ASSISTANT SECRETARY OF DEFENSE FINUCANE**, a former Army Under Secretary, must recommend to Secretary McElroy what should be done about military language training. A House Armed Services Subcommittee has suggested the possibility of converting Monterey to an Armed Forces Language School. It will want details on the Pentagon's position should this suggestion be declined.

**THIRTEEN PROVED A LUCKY NUMBER** for RAdm. Ralph K. James, nominated to be Chief of the Bureau of Ships succeeding RAdm. Albert G. Mumma. The new Chief was No. 13 on the Navy's list of engineering duty officers.

**NUMBER ONE ON THE EDO LIST** is VAdm. H. G. Rickover who, in addition to his duty as Chief of the Naval Reactors Branch, also is Assistant Chief of BuShips.

**ALL MILITARY BANDS** would be given equal status under a bill introduced by Senator Green (D-RI). The Navy and Marine Corps Bands are established by statute, but the Army and Air Force bands and the Army Field Band are established by administrative order. Senator Green wants all five bands to have "equal legal standing." He also has asked the Senate to provide that leaders of the five musical groups may be retained on active duty after they reach the statutory retirement age, provided the President desires to retain them.

**A ROUTINE ANNOUNCEMENT** from the Convair Division of General Dynamics Corporation may be a tipoff of new progress in the Army's secret Red Eye air defense program. Harry T. "Bud" Dillon, 33, who has been in charge of operational support aspects of Convair's Tartar missile program for the Navy—it's a surface-to-air missile—will open a new Convair field office 1 April at Huntsville, Ala., home of the Army's Ordnance Missile Command. Convair is known to be the prime contractor on the Red Eye project, as well as promoting its cargo-carrying Lobber missile for the ground forces.

**OFFICER RESPONSIBILITY PAY CONFUSION** is pointed up in the plight of the Coast Guard (see page 1), which reported to the House Appropriations Committee in February that \$120,000, asked for this purpose in January, would not be needed for the year starting 1 July. However, in March, the Coast Guard received \$60,000 as supplemental funds for the current fiscal year to cover proficiency payments to 127 officers, who have yet to receive increased pay.

**A DISPARITY IN COSTS** being paid to civilian physicians under the Medicare program is attracting the attention of the Comptroller General and Congress. Take appendectomies, for example. The fees range from \$125 in Colorado and Wyoming to \$210 in Alaska. In Illinois and Minnesota, appendectomy fees have been as high as \$175, although the average for these two States is \$153-\$157.

**THERE'S NO RUSH** to incorporate the Navy-adopted Blue and White Mess Jackets into Coast Guard regulations. In the past, the Coast Guard routinely has inserted concurring "green sheets" into its official regulations whenever the Navy came up with a new or revised uniform rule. The Navy has prescribed that a semi-formal Blue Mess Jacket must be obtained by all Regular officers above the rank of lieutenant commander by 1 July. Coast Guard Headquarters still "is studying" this requirement.

**MARKSMANSHIP IN THE MARINE CORPS** is certain to be given a lift with the decision of Commandant Pate to name a general officer as Chief of the newly created Marksmanship Training Division. Brig. Gen. Chester R. Allen, formerly Assistant Quartermaster General, a top marksman, will have broad responsibilities in planning, coordinating, and supervising the individual marksmanship and competition-in-arms programs. General Pate, making the appointment, said: "The weapon of the Marine is still the rifle. Our success or failure on the battlefields depends completely on his individual confidence and ability to use this weapon."

**A REDUCTION IN PENTAGON LIMOUSINES** is being urged by Senator Paul Douglas (D-Ill). He thinks there are too many "elaborate Cadillacs and Lincolns" in all of the Government departments and wants the 37 assigned to the Defense Department reduced to 11.

**THOSE WHO COULD KEEP THEIR LIMOUSINES** are the Secretary of Defense, the JCoS and the Secretaries of the Army, Navy, and Air Force. All have 1959 Cadillacs except CNO Burke, who uses a 1955 Chrysler, and Army Chief of Staff Taylor, whose official car is a 1958 Cadillac. Senator Douglas did not indicate who would get the other two automobiles. Possibly, they would go to the Deputy Secretary of Defense and the Defense Department Director of Research and Engineering.

## AER Annual Meeting Set For 14 April

The annual membership meeting of  
Army Emergency Relief (AER) will be  
held at 10 A.M. 14 April in Room 706, Old  
Post Office Building, 12th & Pennsylvania  
Avenue, N. W., Washington, D. C.

The following have been nominated  
for election as members of the Board of  
Managers for terms of three years, ex-  
piring April 1962: Lt. Gen. James F. Col-  
lins, Deputy Chief of Staff for Personnel;  
Maj. Gen. Albert Pierson, The Inspector  
General; and Mrs. Maxwell D. Taylor.

**SUPERSONIC DEFENDER.** Boeing BOMARC, the  
Air Force's longest-range defense missile, can seek out  
and intercept single or multiple targets long before they  
reach U.S. borders. One base, armed with a squadron  
of BOMARCS ready for instant action, can provide  
interceptor cover over thousands of square miles. Bases  
are now nearing completion. BOMARC can be devel-  
oped to cope with intercontinental ballistic missiles.

**MAN IN SPACE.** Space-age projects at Boeing include  
research to develop protective environments and efficient  
controls for crews of advanced aircraft and space  
vehicles. Boeing is also at work on orbital systems, a  
boost-glide vehicle, and Minuteman, a solid-propellant  
intercontinental ballistic missile under development.

**MISSILE BOMBER.** Boeing B-52G, now in operation with the Strategic Air  
Command, is world's longest-range jet, and U.S. Air Force's most versatile  
long-range weapon system. B-52G carries supersonic air-to-ground missiles for  
in-flight launching hundreds of miles from target areas, in addition to regular  
nuclear bomb load. B-52G can strike several targets thousands of miles apart  
on a single retaliatory defense mission.

**BOEING**

**STATEHOOD FOR ALASKA AND HAWAII** may increase the "foreign duty pay" item in the military budget. Here's why. In the past, foreign duty pay of up to \$22.50 per month for enlisted personnel (officers don't receive it) was paid for duty in Alaska and Hawaii, except for native Alaskans and Hawaiians. With Statehood for these areas, however, it's anticipated that Alaskans and Hawaiians now will be entitled to foreign duty pay when they are serving at "home," the same as military personnel from any other State. The Comptroller General has been asked to rule on the tentative Pentagon determination.

**PUERTO RICO IS ANOTHER AREA** where "foreign duty pay" is authorized. But since it will not have Statehood, residents of Puerto Rico won't be able to collect extra pay when serving there. At one time, Puerto Ricans serving in the U.S. could receive "foreign pay," but that has been eliminated.

**TESTIMONY OF NAVY CHIEFS** during the past decade concerning the critical need for increased specialization is certain to be recalled by Chairman Carl Vinson of the House Armed Services Committee if legislation is proposed to eliminate specialist designators (see page one) and create a Naval Technical Corps. Opposition to the Navy plan also is certain from the powerful American Bar Association.

**NEWSMEN WILL BE CONCERNED** that the proposed loss of the Public Information specialty would mean decreased interest by young naval officers for PubInfo billets. Under the proposed set-up, repeated PubInfo assignments could hurt promotion chances when an officer knows that he must compete with contemporaries who have had opportunity for longer service at sea. There is no question that the Navy plan is headed for rough waters.

**ALL MEMBERS OF THE ARMED FORCES**, active and retired, will hope that the Defense Department does not treat lightly the renewed suggestions being made on Capital Hill (Page 1) for contributory retirement studies. The Pentagon must be prepared to present a forceful case in support of the traditional military retirement system.

**WHAT WILL BE FEARED** by the Services is a continued Pentagon forced retreat from the fight to preserve pay rights for military people. A major march to the rear was taken when the Defense Department, under Administration pressure, did not support equitable pay treatment for military personnel retired prior to 1 June 1958, when the new Pay Act went into effect.

**SCORES OF BILLS INTRODUCED THIS SESSION** have sought to remove the retired pay inequity. The Pentagon has drafted a position paper on this legislation and has submitted its answers to the Budget Bureau for "coordination." There has been good reason to hope, in view of the Congressional interest and the 1960 elections, that the Defense Department would reverse its previous stand. Should the Pentagon refuse to do this and acquiesce to the present situation, the time-honored principle of linking retired pay to active duty pay will have been abandoned. This would open the way to new assaults on retired pay, including the threat of a contributory system that would actually mean a pay cut for every person on active duty.

**IN BYGONE TIMES**, when the Services were in charge of Congressional liaison, the retired pay issue certainly would have been met head-on. That is less certain now under DoD supervision. There is no question that Senator Stennis and others will continue to prod for contributory retirement pay studies. The Pentagon should not wait until it's too late to present a counter-attack. Now is the time for Secretary McElroy, the Service Secretaries, and the Joint Chiefs of Staff to state their case. This is a situation that can't be brushed under the carpet and forgotten.

**THE PENTAGON HAS COMPUTED** the pricetag on the operations in Lebanon and Taiwan last year, \$192.8 million. Extra expense for the Army is calculated at \$47.5 million; Navy and Marine Corps, \$83 million; and Air Force, \$62.4 million. All but \$79 million of the total will be absorbed by the Defense Department from previously appropriated funds. The Pentagon previously had calculated the extra cost at about \$109 million. Actually, it's always a "horseback opinion" in setting costs for such operations. Depending on the ground rules that are set, the estimates can vary by many millions of dollars.

**A NON-RETURNABLE WEAPON CALLED "THE BOOMERANG"**—actually a baby helicopter—is being proposed as an anti-tank weapon. The Kaman Aircraft Corporation has built a full-scale model, and hopes for R&D funds. The "Boomerang," (its name is somewhat a mystery, since it's a one-way weapon) is a flying bomb, which weighs about 70 pounds and is fitted with rotor blades about six feet in diameter. The "Boomerang" would be guided to its target by remote control, and would employ an infra-red homing device.

**THE NAVY WANTS TO BUILD** a \$200,000 aircraft hangar at McMurdo Sound. At present, it takes about three or four hours to get planes ready to fly in the bitter Antarctic cold. The Navy says a hangar permit "quick preflight operations" and thus speed air-rescue work.

**THE PENTAGON IS UNDER PRESSURE**—from Congress and the clock—to decide whether the Air Force will be given the go-ahead to withdraw its students (see page 1) from the Army Language School at Monterey, Calif. The Air Force, making the point that it can save money by use of civilian facilities, has planned no assignments to Monterey after 1 July. The Army argues that the loss of Air Force students will raise the per capita costs at its famed language school.

**ASSISTANT SECRETARY OF DEFENSE FINUCANE**, a former Army Under Secretary, must recommend to Secretary McElroy what should be done about military language training. A House Armed Services Subcommittee has suggested the possibility of converting Monterey to an Armed Forces Language School. It will want details on the Pentagon's position should this suggestion be declined.

**THIRTEEN PROVED A LUCKY NUMBER** for RAdm. Ralph K. James, nominated to be Chief of the Bureau of Ships succeeding RAdm. Albert G. Mumma. The new Chief was No. 13 on the Navy's list of engineering duty officers.

**NUMBER ONE ON THE EDO LIST** is VAdm. H. G. Rickover who, in addition to his duty as Chief of the Naval Reactors Branch, also is Assistant Chief of BuShips.

**ALL MILITARY BANDS** would be given equal status under a bill introduced by Senator Green (D-RI). The Navy and Marine Corps Bands are established by statute, but the Army and Air Force bands and the Army Field Band are established by administrative order. Senator Green wants all five bands to have "equal legal standing." He also has asked the Senate to provide that leaders of the five musical groups may be retained on active duty after they reach the statutory retirement age, provided the President desires to retain them.

**A ROUTINE ANNOUNCEMENT** from the Convair Division of General Dynamics Corporation may be a tipoff of new progress in the Army's secret Red Eye air defense program. Harry T. "Bud" Dillon, 33, who has been in charge of operational support aspects of Convair's Tartar missile program for the Navy—it's a surface-to-air missile—will open a new Convair field office 1 April at Huntsville, Ala., home of the Army's Ordnance Missile Command. Convair is known to be the prime contractor on the Red Eye project, as well as promoting its cargo-carrying Lobber missile for the ground forces.

**OFFICER RESPONSIBILITY PAY CONFUSION** is pointed up in the plight of the Coast Guard (see page 1), which reported to the House Appropriations Committee in February that \$120,000, asked for this purpose in January, would not be needed for the year starting 1 July. However, in March, the Coast Guard received \$60,000 as supplemental funds for the current fiscal year to cover proficiency payments to 127 officers, who have yet to receive increased pay.

**A DISPARITY IN COSTS** being paid to civilian physicians under the Medicare program is attracting the attention of the Comptroller General and Congress. Take appendectomies, for example. The fees range from \$125 in Colorado and Wyoming to \$210 in Alaska. In Illinois and Minnesota, appendectomy fees have been as high as \$175, although the average for these two States is \$153-\$157.

**THERE'S NO RUSH** to incorporate the Navy-adopted Blue and White Mess Jackets into Coast Guard regulations. In the past, the Coast Guard routinely has inserted concurring "green sheets" into its official regulations whenever the Navy came up with a new or revised uniform rule. The Navy has prescribed that a semi-formal Blue Mess Jacket must be obtained by all Regular officers above the rank of lieutenant commander by 1 July. Coast Guard Headquarters still "is studying" this requirement.

**MARKSMANSHIP IN THE MARINE CORPS** is certain to be given a lift with the decision of Commandant Pate to name a general officer as Chief of the newly created Marksmanship Training Division. Brig. Gen. Chester R. Allen, formerly Assistant Quartermaster General, a top marksman, will have broad responsibilities in planning, coordinating, and supervising the individual marksmanship and competition-in-arms programs. General Pate, making the appointment, said: "The weapon of the Marine is still the rifle. Our success or failure on the battlefields depends completely on his individual confidence and ability to use this weapon."

**A REDUCTION IN PENTAGON LIMOUSINES** is being urged by Senator Paul Douglas (D-Ill). He thinks there are too many "elaborate Cadillacs and Lincolns" in all of the Government departments and wants the 37 assigned to the Defense Department reduced to 11.

**THOSE WHO COULD KEEP THEIR LIMOUSINES** are the Secretary of Defense, the JCofS and the Secretaries of the Army, Navy, and Air Force. All have 1959 Cadillacs except CNO Burke, who uses a 1955 Chrysler, and Army Chief of Staff Taylor, whose official car is a 1958 Cadillac. Senator Douglas did not indicate who would get the other two automobiles. Possibly, they would go to the Deputy Secretary of Defense and the Defense Department Director of Research and Engineering.

## AER Annual Meeting Set For 14 April

The annual membership meeting of  
Army Emergency Relief (AER) will be  
held at 10 A.M. 14 April in Room 706, Old  
Post Office Building, 12th & Pennsylvania  
Avenue, N. W., Washington, D. C.

The following have been nominated  
for election as members of the Board of  
Managers for terms of three years, ex-  
piring April 1962: Lt. Gen. James F. Col-  
lins, Deputy Chief of Staff for Personnel;  
Maj. Gen. Albert Pierson, The Inspector  
General; and Mrs. Maxwell D. Taylor.

**SUPERSONIC DEFENDER.** Boeing BOMARC, the  
Air Force's longest-range defense missile, can seek out  
and intercept single or multiple targets long before they  
reach U.S. borders. One base, armed with a squadron  
of BOMARCS ready for instant action, can provide  
interceptor cover over thousands of square miles. Bases  
are now nearing completion. BOMARC can be devel-  
oped to cope with intercontinental ballistic missiles.

**MAN IN SPACE.** Space-age projects at Boeing include  
research to develop protective environments and efficient  
controls for crews of advanced aircraft and space  
vehicles. Boeing is also at work on orbital systems, a  
boost-glide vehicle, and Minuteman, a solid-propellant  
intercontinental ballistic missile under development.

**MISSILE BOMBER.** Boeing B-52C, now in operation with the Strategic Air  
Command, is world's longest-range jet, and U.S. Air Force's most versatile  
long-range weapon system. B-52C carries supersonic air-to-ground missiles for  
in-flight launching hundreds of miles from target areas, in addition to regular  
nuclear bomb load. B-52C can strike several targets thousands of miles apart  
on a single retaliatory defense mission.

**BOEING**

# THE UMBRELLA

## Chaplain Vaughn At Robins

Returning to the Service following four years as minister of two churches in Texas, Chaplain (Capt.) William J. Vaughn has arrived at Robins AFB, Ga., for assignment as the Base Chaplain.

He returns to duty from Waxahachie, Tex., where he served the Main Street Christian Church for the past year. Previously, he was minister for three years at the First Christian Church in Albany, Tex. Prior to these assignments, he was a chaplain at Eglin AFB, Fla., from 1953-55.

Chaplain Vaughn is married to the former Peggy Ann Steenson of Dallas. They reside at 112 Eaker Drive, Warner Robins, Ga.

## BERLIN GUIDELINES

General Nathan F. Twining, Chairman of the Joint Chiefs of Staff, "adding a few words to the confusion" over the Berlin problem, cautioned the Washington Chapter of the American Ordnance Association 19 March that:

"We should keep our feet on the ground, our minds open, and our mouth shut."

The JCS chairman said the keeping up-to-date on the situation is a 24-hour operation with "real tight coordination" between all components of the government concerned in it.

28 Mar. 1959 (Vol. 96, P. 899)

Army Navy Air Force Journal 15

## RESERVISTS WITH STARS

### Air Force Has 9 Reserve-NG Stars; Army List 5, Navy, 2, Marines, 1

The Armed Services report that there are 17 National Guard and Reserve generals and admirals on active duty.

The Air Force has nine.

The Army has five National Guard and Reserve generals. The Marines have one. There are two Reserve rear admirals in active service.

Of the Army's five, two have been proposed for Regular appointments in legislation now pending before Congress.

They are Major Generals Robert W. Colglazier, jr., and Philip F. Lindeman.

There are a total of 1247 general and flag officers on active duty. The Army has 479; Navy, 299; Air Force, 407; and Marine Corps, 62.

Following is a listing of all Reserve National Guard general and flag officers on active duty, with the present assignments. Those preceded by asterisks are National Guard generals.

#### ARMY

Maj. Gen. Robert W. Colglazier, jr., Assistant Deputy CoS for Logistics.

Maj. Gen. Ralph A. Palladino, Chief, USAR and ROTC Affairs.

Maj. Gen. Philip F. Lindeman, CG, 8th Infantry Division, Germany.

\*Maj. Gen. Edgar C. Erickson, Chief of the National Guard Bureau.

\*Maj. Gen. Donald W. McGowan, Chief of the Army Division, National Guard Bureau.

#### NAVY

RAdm. John W. McElroy, Deputy Commander, Naval Reserve Training Command, Omaha.

RAdm. Irving M. McQuiston, Military Executive of the Reserve Forces Policy Board, Office of the Secretary of Defense.

#### AIR FORCE

Maj. Gen. William P. Farnsworth, Auditor General under the Air Force Comptroller.

\*Brig. Gen. Royal Hatch, jr., Special Assistant for Air National Guard, Headquarters, Continental Air Command.

Brig. Gen. Theodore G. Kershaw, Commander, 464th Troop Carrier Wing, Pope AFB, N.C.

Maj. Gen. Chester E. McCarty, Commander 12th Air Force, Waco, Tex.

Maj. Gen. Walter I. Miller, Deputy Chief of Staff, Comptroller, USAFE.

Maj. Gen. Clyde H. Mitchell, Commander, Rome Air Materiel Area, Griffiss AFB, N.Y.

\*Brig. Gen. James L. Riley, Deputy Director, Air Force Secretary's Personnel Council.

Brig. Gen. Felix L. Vidal, Deputy Assistant Chief of Staff, Reserve Forces, USAF Headquarters.

\*Maj. Gen. Winston P. Wilson, Deputy Chief, National Guard Bureau, and Chief of the Air Force Division of the NG Bureau.

#### MARINE CORPS

Brig. Gen. William W. Stickney, Deputy Director of Marine Corps Reserve.

## WAF WINS HONOR

Lt. Col. Marjorie O. Hunt, chief of Administrative Services, Tenth Air Force, Selfridge AFB, Mich., was chosen as one of the 10 top working women of Detroit by the Detroit Central Business District Association.

She was invited to Mayor Louis C. Miriani's office in Detroit to receive the Key to the city. Colonel Hunt was cited for her work in advising Maj. Gen. Robert E. L. Eaton, Tenth AF commander, on all administrative matters concerning Tenth and its 387 subordinate units in an 18-state Mid-American area from Canada to Mexico.

COAST GUARD VISITS NAVY. RAdm. Henry Perkins, USCG (right), confers with Admiral Charles R. Brown, USN, Commander in Chief of Allied Forces Southern Europe, at Admiral Brown's six-nation NATO Naples headquarters. Adm. Perkins, Commandant of the Third Coast Guard District, is inspecting facilities of his command in the Mediterranean area.

# WHAT NEVER LEAKS

to achieve umbrella-like radar protection, Hughes' engineers have developed FRESKANAR—an electronics system which positions radar beams in space by electronic rather than mechanical means.

These unique three-dimensional systems are digitally programmed to instantly detect enemy aircraft flying at high speeds, even at low altitude. Linked to the 3-D radar antenna are mobile computers which simultaneously keep track of hundreds of aircraft and provide for high speed assignment of defense weapons.

Hughes has over 30,000 people devoted to building electronics systems for airborne, shipborne and ground applications. More than 6,000 engineers and scientists form the creative nucleus of this effort.

Their job is to perfect new electronic systems designed to meet our needs for today and tomorrow. Already they are probing into the effects of nuclear radiation on electronic equipment, studying the problems of airborne electronics, delving into advanced microwave theory and application, developing plastic materials which stand up under extremely high temperatures, working on several new types of guided missiles, and examining communications on a spatial scale.

One of the nation's leading suppliers of defense materials, Hughes emphasizes reliability in all phases of manufacturing. Because of this, Hughes systems have proven dependable—even under the most severe and taxing environmental conditions.

Reliability of the advanced Hughes Electronic Armament systems can be insured only with the equally advanced test equipment designed by Hughes El Segundo engineers.

## House Approves Officer Pay Supplement; DoD Delay Confuses Coast Guard's Plans

From first page—

When Congress authorized the new officer responsibility pay last Summer, Coast Guard officials decided to do nothing until the Navy established criteria under which Naval officers would be selected for the added pay.

There have been reports that the Navy wants to give the pay to all skippers of ships in the ranks of lieutenant through captain.

Although no formal Navy decision has

been disclosed, the Coast Guard told THE JOURNAL it had received intra-Service word early this year that Navy criteria had been agreed upon and that the Navy would ask for funds to begin the payments during the current fiscal year.

On that basis, by utilizing the Navy "formula" wherever possible and providing for its own special requirements, the Coast Guard decided to start making the payments to 127 officers during fiscal '59.

No funds had been appropriated for this purpose, however, and when Coast

Guard officials went to Congress this month to ask for supplemental appropriations to meet expenses for the rest of the fiscal year, a \$60,000 request was included for responsibility pay.

The Navy, meanwhile, decided not to implement the new pay concept now.

With no knowledge of the Navy action, or the effect it would have on the Coast Guard, the Appropriations Committee granted the additional \$60,000, and the House approved on 24 March.

However, when queried by THE JOURNAL

about the 127 officers who are to receive the added pay, the Coast Guard said it has now abandoned its plans to implement responsibility pay until the Navy comes up with a firm program.

What happens to the \$60,000 appropriation apparently is up to the Senate.

The House, in the meantime, has approved the Coast Guard budget for next year, eliminating \$120,000 for responsibility pay which USCG officials first requested and later said they would not need.

# ARMY..NAVY..

## BELL TEAMED FOR DEFENSE

ANIP... the Army-Navy Instrument Program... is a prime example of Service teamwork. The goal is to provide ideal all-weather cockpit instrumentation for both fixed wing and rotary aircraft. The approach to the problem is new... that of fitting the machine to the man. The result will be to create a synthetic picture of the outside world right in the cabin, relieving the pilot of the complexities of instrumentation.

This working unity among the Services pools talents and abilities to reach the goal... with savings in time, money and manpower. The benefits will be far-reaching... for aircraft, for helicopters, for every branch of military service. Bell Helicopter Corporation, as rotary-wing industry coordinator, is privileged to be a working member of the Service team.

FORT WORTH, TEXAS • SUBSIDIARY OF BELL AIRCRAFT CORPORATION

Here's how  
**BELL**  
tells America  
about the  
Army-Navy  
Instrument  
Program..  
**ANIP**

This is one of a series of ads currently appearing in such opinion-making publications as Fortune, Business Week and U.S. News & World Report... informing the public of special projects and significant advances in technology being made by various branches of our military services.

Associate Family Editor  
Bertie Johnson

### Wright-Patt Survey Asia-U. S. Understanding

... A look at Asia—Mesdames C. J. Pfingstag, W. F. McKee, J. N. Stovall, E. B. Cassidy, F. E. Rundell and (seated), W. J. Ellis.

THE Wright-Patterson AFB, Ohio, Woman's Club has joined a nation-wide program initiated by the US National Commission in setting up a Citizen Consultation. The discussion group is organized to study "Paths of Action Toward Asian-American Understanding." In this program, the National Commission obtains viewpoints and advice from representative citizens on problems related to international activities. These views are then forwarded to the Department of State and other agencies.

Southeast Asia was the area on which the Wright-Patterson group concentrated. At different times during the sessions, two Asian nationals, students from Pakistan and Thailand, met with the group.

Discussion leader is Mrs. D. M. Nagel; librarian, Mrs. H. A. Reynolds; reporter, Mrs. C. C. Gay, Jr.; recorder, Mrs. P. A. Thomson.

Unit chairmen are Mesdames W. F. McKee, E. B. Cassidy, F. E. Rundell, and W. J. Ellis. Other participants are Mesdames V. S. Haneman, Jr., O. W. Kerr, W. S. Heavner, R. L. Fahrney, R. J. Gibbons, L. D. Harper, A. J. Mason, E. F. Westlake, Jr., D. F. Miller, F. J. Corr, D. E. Doucher, R. B. Wheeler, D. A. Hart, A. M. Samuelson, C. J. Pfingstag, W. V. Wildrick, John Howe, L. M. Bivins, T. G. Watkins, Jr., and J. N. Stovall.

### Journal Entries For Service Families

The Air Force beginning 1 May will limit to 2,000 pounds net (this does not include hold baggage, professional books, papers and equipment, and hand baggage) the weight of household goods shipped to and from Hawaii, Japan, and the Philippine Islands. Families assigned to these areas on orders issued before 1 May will be authorized the weight allowance previously prescribed, according to AFL 75-36. Among items listed as "not required" for Air Force families assigned to these areas are living room, dining room, bedroom or kitchen furniture, stove, refrigerator, and washing machine.

The Air Force Missile Center at Patrick AFB, Calif., reports completion of a 999-unit Capehart Housing project, constructed by Florida Builders, Inc., which has started work on 330 units in the Panama Canal Zone and 400 units at Ft. Rucker, Ala.

The Navy has advised retired personnel that their children may not be enrolled in Navy-operated schools in overseas areas on a tuition-free basis. When space permits, enrollment of these children will be allowed at an annual fee, equal to the per pupil cost of the total instructional support of the school.

The Washington, D. C., Marine Officers' Wives Club has established a \$200 annual college scholarship for daughters of enlisted or officer Leathernecks. The application must be submitted by the daughter of an active duty or retired Marine who resides within 50 miles of Washington. The application must be in the candidate's handwriting, and must set forth the applicant's education goal. Applications should be addressed to: Washington Marine Officers' Wives Club, Scholarship Committee, Secretariat Room 2010, Headquarters, U. S. Marine Corps, Washington 25, D. C.

CELEBRATE. A group of party-goers who helped celebrate the re-opening of the Officers Club at Ft. Lewis, Wash., after its redecoration. Left to right: Lt. Col. Walter W. Kinney, commander of post special troops; Mrs. Kinney, Mrs. Wilson Freeman, Lt. Col. Richard Ludeman, staff judge advocate; Mrs. Ludeman, Lt. Col. Freeman.

### MediCare Program Again Lashed By House Group; Wins \$8 Million, Loses \$9 Million

THE badly battered Family Medical Care program has received an \$8 million shot in the arm, a \$9 million set-back, and another warning to conserve its strength.

The new warning was issued by the House Appropriations Committee which said it continues to be "concerned at the high cost of caring for military personnel and their dependents in civilian hospitals, and the high fees that have been allowed in the MediCare program."

The Committee told the Navy it would not provide \$9 million which the Navy owes the Army for MediCare expenses incurred during fiscal '58. The action marks the second straight year the House group has refused to appropriate funds for Navy bills which piled up during the early months after the MediCare plan went into effect.

The Navy said it also needs \$8.1 million extra to pay fiscal '59 MediCare costs. The Committee approved the latter amount but said it "has gained the impression that little or no effort has been made to obtain reasonable rates for fees and expenses."

The subject is certain to receive further scrutiny in the Committee's consideration of the fiscal '60 program which it is now studying.

### REPORT FROM BERLIN

Heightened interest in U. S. military families stationed in Berlin has prompted The Journal to request and receive from the wife of the U. S. Commander a report on how it is to live behind the Iron Curtain in the "Free World's Showcase."

The 4 April issue of The Journal will highlight an article by Mrs. Barksdale Hamlett, wife of Major General Hamlett.

Says Francesca (Fanny) Hamlett: "Life in Berlin is interesting. Our husbands go about their duties, and we, the women, face each day with confidence and willing hearts."

### Service Folk

Misses Ann and Nancy Marsh, daughters of Lt. Col. (VC, USA) and Mrs. E. T. Marsh, 5801 12th Ave., So., Minneapolis, Minn., both participants in the "gifted student" program at the University of Kansas, rolled up all-A records at K.U. for the first semester of the current school year, Ann as a sophomore and Nancy as a freshman. Ann is a Watkins Scholar, one of the highest honors a Kansas woman student can receive at K.U., where she is chairman of the 40 Watkins Scholars. Through a Carnegie grant, she works part time as a research assistant for the Associate Professor of Chemistry, while majoring in Physics and Mathematics. Her younger sister, ineligible for a Watkins Scholarship since the family moved from Ft. Leavenworth to Minnesota, holds a residence hall scholarship and works part time at the University's Art Museum.

Mrs. William S. Biddle, wife of Major General Biddle, departing III Corps and Ft. Hood, Tex., commander, was honored at a reception 20 March by more than 250 members of the Ft. Hood Officers' Wives Club. The club presented a silver chafing dish to Mrs. Biddle as a parting gift. Mrs. Richard H. Peter, wife of Colonel Peter, Post Ordnance officer, and president of the wives' club, made the presentation. General Biddle will report in May to a new assignment as Senior Member, UN Command, Military Armistice Commission, Korea.

Mrs. Arthur R. Gaines of Philadelphia, wife of Maj. Gen. A. R. Gaines, USA-Ret., has been appointed Chairman of Volunteers of the Southeastern Pennsylvania Chapter of the American Red Cross. She will coordinate the activities of about 8,000 volunteers.

Jack F. Giselman, 13-year-old son of Sfc and Mrs. Frank Giselman, Carlisle Barracks, Pa., will be Central Pennsylvania's representative for the Young Columbus III trip to Italy over the Easter holidays. He won the trip in competition with other Harrisburg, Pa., "Patriot-

BENEFIT SHOW. When the Navy Doctors' Wives Club holds its annual benefit luncheon and fashion show on 9 April at 12 noon at the Naval Medical Center Officers' Club, Bethesda, Md., there will be booths with a variety of items for sale, such as the pajama pillows, doll clothes and cocktail flags being shown here by (standing) Mrs. William Ingram and (seated l to r) Mrs. Robert Williams and Mrs. John E. Jones. Honor guests will include Mesdames Arleigh Burke, Luther Sheldon, Andrew Jackson, W. F. Raborn, Dudley Hale, Thomas Gates, Curtis L. May, Ralph Canine, Ruy Messinger, William B. Franke, Charles Cabell and Capt. Ruth Houghton.

### Miss Cobb Aims to Break Russian Speed Record

A world aviation speed record attempt will be made during the World Congress of Flight at Las Vegas, Nev., 12-19 April by Miss Jerrie Cobb, Oklahoma City, Okla., daughter of Lt. Col. William Harvey Cobb, USAF-Ret.

Miss Cobb will fly a twin-engine Aero Commander 680E to try for an upset of the class speed record set by a Russian, Petre Zakhoudanine, in 1953.

The 27-year-old blonde now holds the class world record for altitude and formerly held the distance record. For altitude she lifted a model 680 Aero Commander to 30,361 feet. Her former distance record was a flight from Guatemala City to Oklahoma City in an Aero Commander 560E, a distance of 1504.74 miles.

News carriers by securing the most new subscriptions to the Harrisburg daily and Sunday papers.

Miss Anne Sweeney, daughter of Maj. Gen. and Mrs. W. C. Sweeney, Jr., Westover AFB, Mass., has been elected President of the Senior Class at Stephens College, Columbia, Mo. She will assume her duties next fall.

**PLAN EXHIBIT.** At a recent tea given by Mrs. Maxwell D. Taylor (left), plans were discussed for a Worldwide Exhibit to be presented by the Women's Club of Ft. Myer. Mrs. Taylor is shown with Mrs. Saw Ohn, wife of the Burmese Military Attache (center) and Mrs. Kermit L. Davis, wife of the Commanding Officer, Ft. Myer. Mrs. Taylor is Honorary President of the Club and Mrs. Davis is Honorary Vice President. The Worldwide Exhibit is planned for 2 April at the North Area Gymnasium, Ft. Myer, at 2:30 p.m. It will honor some 44 military attaches' wives and will feature objets d'art and other interesting articles from the many countries represented. Mrs. Charles Bolté is chairman.

## Distaff Drive

Wives of officers throughout the nationwide Army Air Defense Command contributed \$3,786 during the first phase of a drive to benefit the Army Distaff Foundation, Mrs. Charles E. Hart, wife of USARADCOM's Commanding General, has announced.

Mrs. Hart is a member of the Women's Advisory Committee of the recently organized Foundation.

## MRS. SCHMIDT HEADS DRIVE AT RILEY

Mrs. Marion Schmidt, wife of Colonel Graham E. Schmidt, Commanding Officer, 1st Battle Group, 5th Infantry, has been named Chairman of the Ft. Riley, Kans., Women's Club Fund Drive for the Army Distaff Foundation.

No quota has been established by the Riley women, but Mrs. Schmidt hopes that contributions will exceed \$500.00.

**AID DISTAFF FOUNDATION.** Mrs. Paul J. Jarrett, President of the Ft. Benning Woman's Club, presents a check for \$2,400 for the Army Distaff Foundation to Maj. Gen. Paul L. Freeman, Jr., CG, The Infantry Center and School. The sum was collected jointly by the Woman's Club and the 2d Division Officers' Wives Club. This represents the contribution of the 2d Division and the Infantry Center and School. The check will be forwarded by General Freeman to the Foundation.

Scholarships totaling \$2,000 will be awarded this year by the Woman's Club of Ft. Benning, Ga. Two awards of \$750 each will be given to the high school boy and girl receiving the highest rating in scholastic achievement in the Columbus, Ga., and Phenix City, Ala., school systems.

## Weddings and Engagements

**PROFESSOR** and Mrs. Edward W. Cleary of Urbana, Ill., announce the engagement of their daughter, Judith, to Lt. George Warren Sibert, USA, son of the Commander of the 2d Training Regiment, Ft. Leonard Wood, Mo., Col. (USA) and Mrs. Franklin R. Sibert.

Miss Cleary, who attended Smith College and was graduated from the University of Illinois with highest honors in Political Science, was elected to Phi Beta Kappa and is a member of the Kappa Alpha Theta sorority. Awarded a Fulbright Scholarship to France last year, she studied at the University of Strasbourg. Since her return from Europe, Miss Cleary has been a member of the Staff of Sen. Paul H. Douglas, (D-Ill.), in Washington.

Her fiancé, a Distinguished USMA '58 Graduate is the fourth generation of his family to graduate from The Academy. The great-grandson of the late Maj. Gen. William L. Sibert, (USMA '84), and the late Col. T. J. Rogers, he is the grandson of Maj. Gen. F. C. Sibert, (USMA '12), and Mr. Bernard L. Lamb, Director of Field Service, National Republican Congressional Committee. Grand-nephew of Maj. Gen. E. L. Sibert, (USMA '17), and cousin of Maj. William C. Sibert, (USMA '45), his father is USMA '36. Lieutenant Sibert, who is currently in Basic Flight Training at Camp Gary, Tex., has completed the Engineer Officers Basic Course and the Parachute and Ranger Schools.

The wedding is planned for July at Urbana.

**DANIELS-KOEHLER**—Lt. Col. (AUS-Ret) and Mrs. Milford A. Koehler of 1302 Grass Hill Terrace, Falls Church, Va., announce the engagement of their daughter, Pamela Helen, to Mr. Belden Hull Daniels, son of Mr. and Mrs. Belden Lee Daniels of Camp Hill, Pa.

Miss Koehler attended L'Ecole Internationale, Geneva, and is a senior student at Wellesley College.

Her fiancé, a 1956 graduate of Dartmouth College, will graduate from Harvard Law School this year.

A Summer wedding is planned.

**HOBSEN-HANSEN**—Cdr. (USN) and Mrs. Grant O. Hansen, now with SHAPE, Paris, France, announce the engagement of their daughter, Ann Jessica, to Mr. James Richmond Hobsen, son of Mr. and

Photo by Worolfin  
Miss Koehler

## Activities Of Retired Service Officers

On the eve of departure on a two-months' tour of the Orient, RAdm. William T. Rassieur, USN (Ret.) who has been Corporate Military Advisor for the Lockheed Aircraft Corporation since 1953, announced he would leave the company on 1 June to engage in private consulting work. Admiral Rassieur said he would establish headquarters in Los Angeles.

**Brig Gen. William A. McCulloch, USA-Ret.**, as March Program Chairman, provided the Asheville, N. C. Civitan Club with prominent guest speakers, including Col. Stanley G. Saulnier, USA-Ret., who spoke on "Current Trends in Europe," and Lt. Gen. Robert N. Young, USA-Ret., who supplemented his talk on the composition and functions of STRAC with a film portraying the use of this "Fire Brigade" in a staged demonstration at Ft. Bragg, N. C. Guests who were in attendance included: Brig. Gen. Hayne D. Boyden, USMC-Ret.; Col. Jesse E. Graham, USA-Ret.; and Col. Stuart L. Cowles, USA-Ret.

**Capt. Lewis H. Burrell, USA-Ret.**, plans to teach high school in Gloucester County, Va. He retired recently at Ft. Monroe, Va., after more than 31 years' service.

**Col. John L. Keefe, USA**, Chief of the Maryland Military District and Commander of the Maryland-District of Columbia Sector of XXI Corps, will retire 31 March after more than 30 years' service. He and Mrs. Keefe reside at 5025 Briarcliff Rd., Baltimore. Their elder son, John L., Jr., is a West Point graduate and now serves as a lieutenant in the 82d Airborne Division, Ft. Bragg, N. C. A younger son, Paul F., is a member of the USNA '59 class.

**CWO John L. Tosney, 1015 E. Columbia, Colorado Springs, Colo.**, has retired from the Army after almost 22 years active duty. He had been Assistant Personnel Management Officer, Adjutant General Section, Army Air Defense Command. Mr. Tosney will remain in Colorado Springs with his family at least until June, when his seven-year-old son, John, completes the second grade at school. The family then will return to their home in Wolf Point, Mont.

## M/Sgt. Peterson Writes A Book

Army life in peacetime is the subject of a new book by M/Sgt. Bill Peterson, USA-Ret.

Titled "Sergeant Bull's Cabin And Other Stories" (\$2, Comet Press), the 44-page book is a collection of anecdotal tales. Sergeant Peterson has also authored "Tales And Opinions" and "The Latrine Manual."

Sergeant Peterson, one of the oldest living survivors of the Bataan Death March, makes his headquarters at the U. S. Soldiers Home, Washington 25, D. C. He spends his winters in his trailer home at the Orange Blossom Trailer Park, St. Petersburg, Fla.

Orders for the book may be sent to Sergeant Peterson at the Soldiers Home.

## Adopts Orphan

Sun Ja Yoo, 9, an orphaned Korean girl, has been "adopted" through the Foster Parents' Plan Inc., by the Non-Commissioned Officers Wives Club at Ft. Holabird, Md. The Officers Wives Club there previously adopted a German boy, Jacob Rohrer, now 13.

Mrs. Richmond P. Hobson of Arlington, Va.

Miss Hansen, who is a junior student at Pembroke College of Brown University, is President of the Student Government Association. Her fiancé, who will graduate from Cornell University in June, is a member of the senior men's honorary society, "Quill and Dagger"; the national honorary Journalism fraternity, Pi Delta Epsilon; the Sigma Alpha Epsilon social fraternity; and is Editor of "The Cornellian."

**Lt. Col. Alex Kaminski, USA-Ret.**, 7514 Piney Branch Road, Silver Spring, Md., has enrolled in the spring class at the Lewis Hotel Training School, Washington, D. C., for an intensive 17-week course studying hotel, motor-hotel, restaurant and club operations.

**Col. Carlton G. Schenken, USA-Ret.**, Fourth Army Staff Judge Advocate until his retirement 28 February after more than 30 years of military service, has accepted a position as Vice-President and Treasurer of the United Services Automobile Association, San Antonio. With his wife, Ruth, he resides at 210 Canterbury Hill, Terrell Hills, San Antonio.

**Brig. Gen. Carter W. Clarke, USA-Ret.**, recently presented the new American Flag with 49 stars to the Robert Bentley Post of the American Legion in Cincinnati. Occasion of the ceremony was the Mid-west premiere of the moving picture "Rally Around the Flag, Boys," given as a benefit performance for the Will Rogers Memorial Hospital.

**Brig. Gen. and Mrs. Thomas S. Arms, USA-Ret.**, were at Ft. Benning, Ga., recently for a visit with their son, Maj. Thomas S. Arms, Jr., and his wife.

**Maj. Gen. Richard C. Partridge, USA**, who was retired 28 February after more than 38 years' service, was awarded the DSM (First Oak Leaf Cluster) by Lt. Gen. B. M. Bryan, Commanding General of First Army at Governors Island, N. Y.

## Navy Relief Cites

### Ten-Year Increase

A threefold increase in the activities of the Navy Relief Society is reported for the past decade.

The Society's newly released 1958 Report notes that assistance in loans to Navy and Marine Corps families rose from \$1,663,000 to \$4,471,000. In outright grants to Service families, the increase was even more marked, from \$190,000 in 1948 to \$748,000 in 1958.

Noting that the 1958 contributions of \$1,347,000 were the largest since WWII, the Society said that this constituted a marked increase from the \$406,000 collected in 1948. In the same period, the number of Society volunteers increased from about 600 to nearly 5,000.

VADM. V. R. Murphy, USN-Ret., Society Executive Vice President, that the Armed Forces' pay raises in June 1958 had little effect upon the total number of loans granted by NRS. These loans totalled \$4,470,636 in about 70,134 cases.

The pay raise "was nominal—to say the least—for personnel in the lower pay grades who make up by far the greater number of our people who request and really need our help," Admiral Murphy said.

Includes linen, complete cooking and eating facilities, telephones, etc. Ten minutes to Pentagon. Write for reservations—CLARENDON HOTEL COURT, 3824 Wilson Blvd., Arlington 3, Va. JA 5-7200.

## Army Medical Service Issues New Volume: Col. Coates Heads Historical Project

The Army Medical Service has announced publication of two more volumes relating the history of the Medical Department, in WW II.

The new books are entitled, "Communicable Diseases Transmitted Chiefly Through Respiratory and Alimentary Tracts," and "Neurosurgery, Volume I."

The former is the first of three volumes dealing with communicable diseases and, like other volumes in the preventive medicine series, is the record of how medical officers, civilian experts in preventive medicine, and authorities in public health joined forces to bring about the most successful task in wartime preventive medicine that has ever been accomplished.

The neurosurgical volume is the first of two dealing with the history of that specialty in WW II. It relates the administrative considerations as well as the treatment of head injuries.

Another neurosurgical volume, to be published in the near future, will deal with injuries of the spinal cord and of the peripheral nerves.

The volumes comprising the History of the Medical Department, U. S. Army, in World War II are divided into two series: (1) The administrative, or operational and logistical series; (2) the professional, or clinical and technical series.

Both series are straightforward accounts of the wartime activities of the Medical Department in the fields of administration, dentistry, internal medicine, neuropsychiatry, preventive medicine, surgery, and veterinary medicine.

Of the proposed 45 volumes, 14 have been completed and are available for purchase from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The Historical Unit, Army Medical Service, located at the Forest Glen, Md.,

### Virginia (Cont.)

**FORDS**—Serving West Point & Army Officers since 1932. ENORMOUS consideration given to Officers and Army Personnel on the purchase of a new Ford. Wm. H. Avery, Avery Motors, Route 9-W, Highland Falls, N. Y.

1959 Chryslers and Plymouths at lowest delivered price by direct-factory authorized dealership. Write for complete free information. Pearson-Hurffville, Sewell, N. J.

### New Services Almanac Tells Rights, Benefits

(1959) **UNIFORMED SERVICES ALMANAC**—Price \$1.00, published by Uniformed Services Almanac, P.O. Box 400, Washington 4, D.C.)

This newly published book provides in one volume the basic benefits and rights to which Servicemen and their families are entitled.

As far as is known, this is the first time that any such comprehensive project of this kind has been undertaken.

Crammed with vital and essential information, the Almanac contains complete take-home pay tables for Servicemen after taxes and other deductions; military retirement benefits, social security, family medical benefits, class Q allotments, the new MediCare program, Federal and State income tax tips, veterans' benefits, veterans preference in Civil Service employment, military reserves, insurance, dependency and indemnity compensation, etc.

All orders sent to P.O. Box 400, Washington 4, D. C., will be promptly filled, the publishers advise us.

#### Leaves Westover For Scott

Lt. Col. Joe P. Miller, who served the North Atlantic AACS Region at Westover AFB, Mass., as Director of Communications since July of 1957, will assume duties with Headquarters, Airways and Air Communications Service at Scott AFB, Ill.

His wife is the former Jewel Reed of Denton, Tex.

Medals expertly mounted, large and miniature. Ribbons made. David Sando, P. O. Box 6293, Washington, 15, D. C.

### What's Ahead

**A Combat Developments Logistical Conference** for world-wide Army combat developments agencies will be held 28-30 April at Continental Army Headquarters, Ft. Monroe, Va.

**A Procurement Policy Review Meeting** has been scheduled for 1 and 2 April at the Army Signal Supply Agency, 225 S. 18th St., Philadelphia. Col. Olin L. Bell, Procurement & Distribution Division, Office of the Chief Signal Officer, will head the panel.

**The 149th Infantry Veterans' Association**—Kentucky's own National Guard Regiment in WW II—will hold its 11th annual reunion at Zachary Taylor Post No. 180, American Legion, in St. Matthews (Louisville), Kentucky, 17-19 July. This announcement was made by Roy G. Atkins, Jr., 1911 Deerwood Ave., Louisville, 1959 Reunion Chairman.

#### Gill Robb Wilson Elected

Gill Robb Wilson, editor and publisher of *Flying Magazine*, has been elected to the Board of Directors of the Dalto Corporation, manufacturer of the Dalto Visual Flight Simulator Attachment.

A military pilot during WWI, he holds the French Croix de Guerre, the Distinguished Service Medal of the States of New Jersey and West Virginia, and the Exceptional Service Award of the Air Force, highest civilian decoration granted by the Department of the Air Force. He is chairman of the Board of The Space Education Foundation.

#### U. S. COAST GUARD

### Budget Cut \$4.2 Million; Reserve Funds Increased; Total Up \$23.3 Million Over '59

**ALMOST** \$4.2 million has been sliced from the fiscal '60 Coast Guard budget by the House.

President Eisenhower had asked for a total of \$260,180,000 for the Coast Guard. The House approved \$256 million. This is \$23.3 million more than this year's budget.

Biggest single cut was \$2.5 million in the procurement program. The Coast Guard had asked \$6 million for replacement of deteriorated patrol boats. The Appropriations Committee said delayed specifications for the replacement program will hold up procurement.

Retired pay was reduced \$400,000. The Committee said recent experience indicates that retirements may not be meeting expectations.

More than \$1.7 million was dropped from the request for "operating expenses." This was done, the Committee said, to retard Coast Guard plans to employ an additional 798 military and civilian workers.

The Committee added \$500,000 to the Coast Guard budget for Reserve training. These funds are earmarked for the new training facility at the former Navy site, Yorktown, Va.

#### Win Promotions

President Eisenhower has named 28 Regular and Reserve Coast Guard officers for advancement to the next higher temporary rank, including three to captain, four to commander, six to lieutenant commander, 12 to lieutenant and three to chief warrant officer, pay-grade W-3.

Officers whose names are preceded by an asterisk in the following list are Reservists:

##### To Captain

Lambert, Corliss B. McIntosh, James Ridgely, R. 3d

##### To Commander

Bush, Armand J. O'Meara, John J. Levine, Lester A. Thompson, Glenn O.

##### To Lieutenant Commander

\*Lowry, Richard Q. Clark, Woodley T. \*Carter, Thomas H. Cooper, George W. \*Hall, Raymond T. Erickson, Russell D.

##### To Lieutenant

Dorini, Donald K. \*Murphy, H. L., Jr. Spurl, Alfred E. Doan, Harold W. Patton, Aubrey R. Wilcox, Raymond W. \*Bosomworth, D. P. Hutchinson, E. S. \*Garbe, George H. \*Urfer, Kenneth D. Brock, Michael T. \*Wood, Merrill K.

##### To CW0-3

Jensen, Arloy F. Sanders, Charles H. Shows, "A" "Z"

In addition, the President named warrant officers Frederick J. Alles and Edward J. Fraser for pay-grade W-2, effective 1 April.

#### Assignment Changes

##### Captain

Alger, James A., Jr. Academy (Engr Maint to Asst Supt). Evans, Gilbert R., CGD5 (Oper-Difot), to COMEASTAREA (Oper-Difot). Hutson, John J., Jr. COTP, Sfran (CO), to HQ (Ch OPL Div). Sutter, William L., HQ (Ch OPL Div), to WESTWIND (CO).

##### Commander

Cromwell, Robert P., COMPHILSEC (Difot), to HQ (OAV) (Difot). Davis, Larry L., CGAS, Bklyn (XO), to COMPHILSEC & CO, CGAD, Sangley Pt (Difot). Ing, Edwin B., CGD9 (Oper-Difot), to CGD5 (Oper-Difot). Mathison, Elmer P., CGAD, Barbers Pt (Aero Engr-Difot), to Wright-Patterson AFB (Liaison-Difot). McMullen, Ira H., CGAD, Bermuda (CO) (Difot), to CGD7 (Oper-Difot). Rea, Jerry K., CGAS, St Petersburg (XO) (Difot), to CGD9 (Oper-Difot). Richmond, Chester A., Jr. HQ (OAV) (Difot), to CGAD, Kodiak (CO) (Difot).

Stauffer, George V., CGD13, to NORTHWIND.

### Former Naval Officer 'Harry' Marks Jubilee

A former Naval officer whose business caters especially to members of the U. S. Armed Forces—from private to general, from seaman to admiral—will celebrate next week the 25th anniversary of his world-known enterprise.

It was on 3 April 1934 that Harry Slavitt opened "Harry's Liquor Store" in Washington, D. C., with an inventory of \$166.24.

Since that time, his stock has multiplied many times, and so have his contacts with military families.

Lining the walls and office of the store at 509 7th Street, S.W., are autographed photographs of ranking officers of all the Services.

A prized possession is an album of letters sent to Harry during WW II by commanding generals and flag officers from all theaters of operations.

During WW II, Harry was commissioned in the Naval Reserve and served on active duty for three years. At the end of the war he was an aide to Admiral W. B. Young, then Chief of the Bureau of Supplies and Accounts.

Mrs. Slavitt was in command of the store during the proprietor's active duty. After the war, Mr. Nat Rubin, who had served with the Air Force in the CBI, joined Harry as the top deputy.

### Lt. Wilson Leads Quantico Basic Class

Second Lt. David R. Wilson was Honor Graduate of Basic Class 4-48, achieving a scholastic average of 98.68 while attending the 30-week course at Marine Corps Schools, Quantico. He has been posted for duty with the Third Marine Division.

Lieutenant Wilson received the Marine Corps Association's sword from Brig. Gen. Victor H. Krulak, Director of the Corps' Educational Center.

Lt. Slavitt

## INDUSTRY IN DEFENSE

**BIG CONCEPT-SMALL PACKAGE** — Leaders in Army-Industry team aiming for tenfold reduction in size and weight of military electronics through use of micro-modules at unveiling ceremonies of revolutionary, new concept. Picture shows Brig. Gen. David Sarnoff (right) Chairman of the Board, Radio Corporation of America; John L. Burns, RCA president, and Col. Harold McD. Brown, Commanding Officer, U. S. Army Signal Research and Development Laboratory, Ft. Monmouth, N. J., as they attended press conference in New York City. RCA is prime contractor for U. S. Army Signal Corps in the micro-module program.

## Solar Gets Award For Boeing KC-135 Jet; AiResearch Builds Space Mouse Capsule

The Air Force has awarded Solar Aircraft Company of San Diego a new \$1.7 million follow-on order for gas turbine-powered airborne generator sets for the Boeing KC-135 jet tanker. . . . An air conditioned and pressurized five-pound small animal capsule has been built by Garrett Corporation's AiResearch Manufacturing Division, Los Angeles, to carry a mouse into orbit in outer space. . . . The Navy and General Electric Company report a growth program for G-E's T58 small aircraft gas turbine, which will result in a 1,250 hp engine, an increase from the present 1,050-hp. . . . The Air Materiel Command has awarded a fifth follow-on order, this for \$1.4 million to the Grand Rapids, Mich., Division of Lear Inc. for MC-1 automatic flight control systems used in the KC-135. . . .

## Satellite Contract To North American; Other Army Awards To C-W And Fairchild

North American Aviation of Canoga Park, Calif., has been given an Army contract of \$2.9 million in connection with the satellite program. No further details were released. . . . Another Army contract of \$3.7 million went to Curtiss-Wright Corp., South Bend, Ind., for 300 earth-moving scrapers; . . . A \$2.4 million contract for 247 air conditioners has been granted by the Army to the Stratos Division of Fairchild Engineer and Airplane Corp., Bay Shore, L. I., N. Y.

## Grumman Receives \$93 Million For Early Warning Plane; Changes Told In Sperry Unit

The Navy has awarded Grumman Aircraft Engineering Corporation of Bethpage, N. Y., a \$93 million development and production contract for a new prop-jet early warning airplane, the W2F-1, designed to operate from carriers and featuring detection gear in a huge saucer-like radome atop the fuselage. . . . Sperry Gyroscope Company of Great Neck, N. Y., has named Robert F. Garbarini, previously Engineering Manager of the Division's B-58 Hustler Group, to be Director of Engineering and Sales for the Air Armament Division, which has responsibility for the B-58 navigation system and company and government-sponsored space programs. . . .

Emmitt Graham II, for the past four years a Project Manager on the Army "Dart" missile program and several Navy research programs, has been advanced to Manager of a new Grand Central Rocket Co. office at Huntsville, Ala.

More than \$6 million has been shaved from the cost of producing F-105 Thunderchief fighter-bombers and from other government contracts by Republic Aviation Corporation of Farmingdale, Long Island, N. Y., according to Harley S. Jones, Executive Vice President. He said the savings, achieved in 1958 through the company's conservation program, resulted from 910 cost-cutting ideas and procedures initiated by internal departments and shops of the jet manufacturer. The figure is more than \$2 million higher than savings during 1957 and brings the total for the three years during which the program has been operational to \$13 million. . . . The industrial electronics department of Westinghouse Electric Corporation has built the world's largest and most powerful "hi-fi" amplifier used to test Lockheed Polaris missile parts. W. J. Delaney, Jr., Manager of the Westinghouse X-Ray and Industrial Electronics Division at Baltimore, said the amplifier has an output capacity of 200,000 watts—about 20,000 times more powerful than most home high fidelity radio-phonographs.

## WWII Naval Officer Named Logistics Dep.

Secretary of Defense McElroy has named Philip LeBoutillier, Jr., as Deputy Assistant Secretary of Defense for Supply and Logistics, effective 1 April.

A World War II Commander of subchasers, destroyer escorts and high-speed transports, LeBoutillier succeeds Cecil P. Milne, who will become Assistant Secretary of the Navy for Material.

Mr. LeBoutillier will serve under Assistant Secretary of Defense Perkins McGuire, who is responsible for transportation, supply, communications, petroleum, procurement, production, planning, requirements, and small business.

## Martin Company Wins Miniaturization Award

The Martin Company's Nuclear Division, Baltimore, Md., has been named winner of the 1958 Miniaturization Award for the development of the SNAP-III five-pound atomic generator.

Established in 1957, the award annually recognizes advances in the art and science of miniaturization. The program is sponsored by Miniature Precision Bearings, Inc. of Keene, N. H.

Presentation of the award was made 22 March in New York City.

## Grand Central Engineer Chief

Dr. Cleo Brunetti, Vice President and General Manager of Grand Central Rocket Co., Redlands, Calif., has named Mr. Kenneth H. Jacobs Director of Engineering.

Mr. Jacobs, who holds a Bachelor of Science degree in Mechanical Engineering from Illinois Institute of Technology, came to Grand Central from Chicago Midway Laboratories where he was Director of Engineering Division in charge of research and development work on Air Force programs concerning rocket propulsion, re-entry problems, plasma generators, ballistics and weapon assessment.

## Test Drone Copter

From page 6—

box's center, regulates the line of flight and speed.

In tests conducted at Quantico, basic infantrymen have learned to make near-perfect flights in about two hours.

The "bullets and beans" are carried under the drone in pallets or cargo nets. Each load can be up to 6,000 pounds.

The General said that the drone also "may be used as a reconnaissance vehicle," equipped with a camera, TV, or radar.

A Kaman representative said his company had recently completed a series of demonstration flights for the Navy at Key West. The Navy, he said, has expressed interest in the drone for possible use as a torpedo carrier.

## Convair Receives Nuclear Plane Design Award

The Air Force has chosen Convair Division of General Dynamics at Ft. Worth, Tex., to work with the Nuclear Propulsion Division of the General Electric Co. in the initial design of a nuclear powered bomber prototype.

Preliminary design studies were conducted with two companies, the Marietta Division of Lockheed Aircraft Corp., and Convair, Ft. Worth. In recent months the design proposals of each of these companies have been carefully studied and the selection of Convair resulted from this evaluation.

A Defense Department announcement added:

"Most of the current work on the aircraft nuclear propulsion program is concentrated on the development of the propulsion system. This will continue to be the case for the immediate future. However, it has been decided that more efficient use of the resources that are being invested can be realized if a single airplane company works directly with the propulsion contractor in carrying out the design from this point on.

"The Air Force will continue to support limited design work at the Lockheed plant. Lockheed will also continue to operate the Georgia Nuclear Laboratory to conduct radiation effects experiments in support of the overall nuclear propulsion program."

**INSPECTS "AERIAL JEEP"**—Lt. Gen. Arthur G. Trudeau, USA, Chief of Research and Development, gets acquainted with the cockpit of the Piasecki Army VZ-8P "aerial jeep" on a visit to Piasecki's Philadelphia plant where the revolutionary, wingless ground-and-air vehicle was designed and developed. With Lt. Gen. Trudeau is F. N. Piasecki, company president.

## Senator Monroney Pushes Plan To Buy 400 Modern Cargo Planes To Boost Airlift

from first page—

THE JOURNAL his group discussed with MATS leaders the essentials of what it would take to modernize military airlift.

Previously Senator Monroney, accomplished by Senators Strom Thurmond (D-S.C.) and Claire Engle (D-Calif.), visited Dover AFB, Del., where they inspected MATS equipment and conferred with Maj. Gen. William Stone, Eastern Transport Air Force Commander, and Brig. Gen. Robert J. Goewey, 1607th Air Transport Wing Commander.

Among the big aircraft they inspected

there were the Douglas C-133 Cargomaster, which recently set a new world's cargo-lift record, and the Douglas C-124 Globemaster, which was used to support American troops in the recent Middle East crisis. Also shown was a Lockheed C-130 turbo-prop powered aircraft, used by the Tactical Air Command in the rapid transport of Army troops.

The first step in the Senator's plan is to settle upon a modern, high-performance cargo aircraft suitable for use both by MATS and the civil airlines, scheduled and non-scheduled. Such aircraft, he said, should be of low operating cost and

designed so that when built in quantities the unit price would be low enough to offer the possibility of transporting cargo at about 4½ cents per ton-mile.

The first step in Senator Monroney's program requires agreement among the military and civil airlines on a suitable design. The next step, he says, would be to determine a way to purchase and distribute the aircraft.

He feels that if 400 were bought, 100 should go to MATS and the balance to civilian operators under terms requiring that they be ready for emergency military use on a few hours' notice.

Senator Monroney's next move will be to discuss the proposed solution with civil airline operators and with the airframe manufacturers.

Senator Monroney said in an interview he believes that his plan is thoroughly feasible and that it would contribute enormously both to the military preparedness of the nation and to the national economy through the availability of swift airlift at reasonable prices.

He will introduce a bill, but not until agreement has been reached among all concerned and the details thoroughly worked out.

### PAY CHECKS RISE FOR AF FAMILIES

AIR FORCE families will receive \$15.1 million more in their pay checks this year than was originally estimated in the fiscal '59 military budget.

The increase has been approved by the House Appropriations Committee.

Maj. Gen. J. J. Nazzaro, Air Force Director of Personnel Planning in the office of the Deputy CofS, Personnel, told the Appropriations Subcommittee on Deficiencies that the increase was brought about by "higher dependency and longevity factors."

He said pay and allowances mushroomed because "there have been significant increases" in the number of married military personnel and the average size of their families.

As an example, he said, when the fiscal '59 military personnel budget initially was computed, 11.6% of the airmen in the grade of first class had three or more dependents, now 17.1% have families of three or more. Thus, the estimated quarters allowance for airmen has increased from an average of \$474 per year, to \$562.

Another example, he said, is that "average yearly base pay" has been increased because bigger percentages of Air Force members have moved into higher "total service" brackets.

General Nazzaro said the "combined effect of these higher dependency and longevity factors for airmen and officers results in an increased cost of \$15,127,000 for the pay and allowances of military personnel in fiscal year 1959."

### Increased Funds Denied For Retired

Military retired pay is not growing as rapidly as expected, although the Defense Department thinks the retired payroll could rise to \$645 million before next July.

The Pentagon originally requested \$600 million for retired pay during this fiscal year. Another \$40 million was added as a result of the 1958 Military Pay Act.

Later, the Pentagon asked for about \$3 million more, but Congress refused to appropriate the money.

This year, Defense officials told the House Appropriations Committee that the \$18 million estimate proved to be too high. They have prepared a new estimate for an additional \$5 million, but say this, too, may be excessive.

As a result, the Committee disallowed the entire \$5 million request "inasmuch as it now appears that the number of annuitants on the rolls will not reach the number contemplated when the estimates were prepared." The Committee said "If it becomes apparent at a later date that funds are required they can be estimated and provided at that time."

The Defense Department thinks, but is not certain, that the number on the retired rolls could rise to 233,191 by 30 June of this year. This would be 2,156 more than first was estimated for the current fiscal year.

## Los Angeles Times

# SUBMARINE SHELLS SOUTHLAND OIL FIELD

An almost forgotten incident of World War II occurred when an enemy submarine shelled a Southern California oil field with its deck guns—then escaped to sea.

IN 1942, only a few thousand people lived within range of that enemy sub's deck guns. Today, from that same offshore location, an enemy sub could launch long-range atomic missiles to devastate targets any place in our 17 westernmost

states (population 40,000,000).

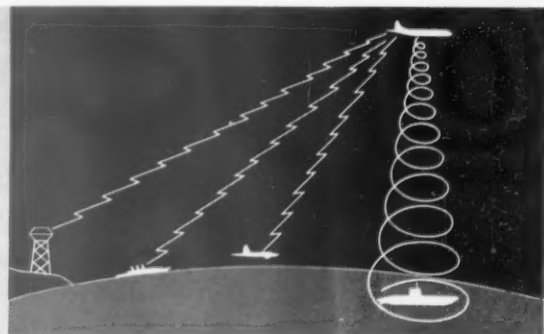

To negate the growing submarine threat, the U. S. Navy has developed the world's largest, most efficient anti-submarine warfare forces. For 14 years Lockheed P2V land-based patrol planes have been

the backbone of that program.

Lockheed has more experience and in-being facilities for producing ASW planes than any other company. That's why Lockheed can build better ASW planes—in less time, for fewer defense dollars.

World's most efficient and formidable sub hunter-killer plane—a direct design descendant of performance-proved ELECTRA—P3V-1 is being developed for the U. S. Navy.

While the P3V-1 ELECTRA is capable of making kills of enemy subs, unaided, one of its vital missions is to provide co-ordination for anti-submarine units within the search area.

## Contributory Retirement Pay System Threat Is Raised By Senator Stennis

**From first page—** 1958) that it might be wise to require military personnel to contribute to their retirement system, and to penalize those who retire early.

In a speech on the Senate floor on 20 March, Senator Stennis said the merits of a contributory system "should be studied" along with other alternatives, if recomputation bills introduced by almost one-third of the Senate membership "are to be considered."

Senator Leverett Saltonstall (Mass.), ranking Republican on the Armed Services Committee, agreed that "if further retired pay increases are to be reconsidered, that might certainly open up the

whole question of major and fundamental revisions in the entire military pay system."

Senator Saltonstall said the recomputation measure would cost \$400 million "over the lifetime of the entire retired pay group" and only "those in the high commissioned grades" would benefit. He said that "there would be no increases for typical retired enlisted personnel or junior grade officers."

Senator Stennis again raised the subject of early retirement. He said there is some question "whether on balance this continued retirement policy is in the overall best interests of the services."

He warned Senate colleagues that they

must "make certain that military retirement does not become an end in itself, rather than a means of providing adequate compensation after the conclusion of a career of useful service."

Some of those retired before 1 June 1958 already are receiving "more retired pay than they ever received in the form of basic pay while on active duty," he said. "Moreover, there are some retired Members in this group whose retired pay today, with the 6% increase, is greater than the highest pay they ever received on active duty, including all allowances."

Senator Stennis said the cost of recomputation would jump an additional

\$50 million if extended to all those retired under laws in effect prior to the Career Compensation act, for "a complete total of \$450 million."

## Navy Organization Plan Is Presented

**From first page—**

other DCNO (Air) responsibilities for Reserve, flight services, liaison branch, air warfare, and Naval weather service shifted elsewhere in the Office of the CNO.

• Combine the functions of the Commandant Third Naval District (NY) with those of Commander Eastern Sea Frontier and similarly combine the Twelfth Naval District (SF) and Western Sea Frontier—an action that would free two flag billets.

Under Secretary Franke, who becomes Secretary on 1 June, says it would probably take about a year to plan all the details of the new organization and another four years to implement it completely.

It can be expected that Secretary Gates will endorse many of the recommendations — certain the proposal to establish a Bureau of Naval Weapons and a DCNO (Development) — however, there is a possibility he will see some modification in the organization study — perhaps those relating to the elimination of specialists designators.

### Do It Yourself

A "do it yourself" school to help Army personnel in foreign languages is now in operation in Pentagon Room 1D4.

The facility consists of 12 soundproof booths each equipped with a two-channel tape recorder and a library of tapes with other instructional material in 30 languages and dialects.

Students have choice of languages that includes Afrikaans, six Arabic dialects, Burmese, Chinese, Czech, Danish, French, German, Greek, Hindustani, Indonesian, Italian, Japanese, Korean, Malay, Norwegian, Persian, Polish, Portuguese, Russian, Serbian, Croatian, Spanish, Thai, Turkish, and Vietnamese.

## solving today's problems today: Burroughs 220 Computer

In scientific computation and business data processing, the new Burroughs 220 is delivering tangible results today. Linking a powerful digital computer to equally powerful input-output subsystems, the 220 offers balanced performance at the lowest application cost. Its expandable core memory, built-in floating decimal arithmetic, vast Datafile magnetic tape capacity and the multiple-card processing ability of Cardatron make this the most powerful system available in the medium price field. The 220 is just one part of a complete line of advanced Burroughs electronic data processing equipment...now in production...now at work in hundreds of installations...supported by an outstanding team of computer specialists. Write today for 220 brochure, ElectroData Division, Pasadena, California.
